PROCEEDINGS OF THE  
REPORTS OF COMMITTEES.

Mr. Hitchcock, of the Special Committee on Applications to the Legislature, presented the following report, which, on motion of Mr. Roche, was received and ordered printed.

REPORT OF SPECIAL COMMITTEE ON APPLICATIONS  
TO THE LEGISLATURE.

Your Special Committee on Applications to the Legislature of the State of New York, appointed at the last regular session of the Board of Supervisors, to obtain a partial repeal and amendment to chapter 379 of the Laws of 1862, do hereby report that the efforts of your committee have resulted in complete success.

After various hearings before committees of the Senate and Assembly, and the Common Council of the city of Albany, the bill as prepared by your committee was unanimously and favorably considered by those representative bodies, and received both the signature of the Mayor of the city of Albany and the Governor of our State, and we are pleased to announce to you that the bill, now known as chapter 595, Laws of 1900, is now a law of the State of New York.

Much credit is due to the assistance rendered your committee by the Mayor and Common Council of the city of Albany, who passed unanimously a set of resolutions, introduced by Alderman Barends, that were presented to the committees of the Legislature, indorsing the attitude and endeavors of our Board of Supervisors to place all property west of Allen street and east of Nineteenth street at full rates with the rest of the city; to Corporation Counsel Arthur L. Andrews, who appeared in behalf of the Mayor and Common Council of the city at the hearings before the committees of the Legislature with convincing arguments favoring the passage of the bill; to ex-Supervisor William F. Kearney, Jr., who attended all the hearings and conclusively proved the unjustness and unfairness in continuing the Law of 1862; and to our Senator and Assemblymen, who occasioned its successful progress through both branches of the Legislature.

Inasmuch as it is the province of the Finance Committee of the Albany Board of Supervisors to affix the rate of tax on this formerly exempt district, we therefore call attention of this Board to the fact that hereafter full rates must be fixed on all property east of Nineteenth street and a prolongation of said Nineteenth street, north to the northerly line of the city as said north line

was in 1862, and south to the southerly line of the city, as said line was in 1862, and only such property as lying west of said Nineteenth street, formerly exempt by the Law of 1862, is to continue to enjoy the benefits of a reduced rate, as per the conditions and the provisions of that law, said law being still in force as applies to said portion of said district now west of Nineteenth street.

Respectfully submitted,

ED. G. HITCHCOCK.  
JOHN F. ROCHE.  
CARRELL COON.

Mr. Lindsay moved that the committee be discharged, with the thanks of the Board.

Carried.

Mr. Bender, of the Special Committee on Reception Pavilion, presented the following report, which was received and ordered printed:

*To the Honorable, the Board of Supervisors of the County of Albany:*

Your committee, appointed pursuant to the provisions of an act of said Board entitled "An Act to authorize the construction of a reception pavilion to provide for persons affected with mental and nervous disorders," passed December 20, 1899, respectfully reports:

That, in accordance with the provisions of said act, the contract mentioned in section 5 thereof was duly executed and filed in the office of the County Treasurer of this county; that thereafter your committee adopted plans and specifications for the construction and completion of said building, and caused to be inserted in the official papers of this county a notice requesting the submission to it of bids for said construction; that, by the terms of said notice, bids were to be submitted as follows: For mason work, for carpenter work, for plumbing work, for painting work, for heating work and for roofing work.

That on the 17th day of April, 1900, bids were received from various persons and contracts were awarded thereon as follows:

April 23. Mason work, M. L. Ryder Building Co. . .	\$6,561 00
April 23. Carpenter work, M. L. Ryder Building Co.,	4,826 00

April 23. Plumbing work, McCann & Burns.....	\$1,087 00
April 26. Painting work, M. L. Ryder Building Co.,	537 00
May 5. Heating work, James Hunter.....	1,615 00

That contracts have been duly executed in accordance with said awards.

That but two bids for roofing work were received, and that said bids were as follows:

James J. Gorman.....	\$1,000 00
James Ackroyd . . . . .	724 48

That Mr. Ackroyd appeared by counsel before your committee on said 26th day of April, and informed it that he would not sign a contract for said work containing a provision that he would employ no laborers on said work except residents of Albany county and members of trades organizations when practicable, as required by a resolution of this Board adopted at a session held December 19, 1899. That no contract for said work has been awarded.

That on said 26th day of April, 1900, said Ackroyd caused to be served upon your committee and upon the Clerk of this Board an alternative writ of mandamus, requiring said committee to award said contract for roofing work to said Ackroyd or to show cause why the same should not be done, and to make return thereto within twenty days after the service thereof.

All of which is respectfully submitted.

Dated May 8, 1900.

Please acknowledge receipt of this notice, and kindly inform us in what building the meeting will be held.

*Secretary.*

Mr. Hitchcock moved that the Supervisors from the towns be requested to urge upon their respective Boards of Assessors the necessity of attending the meeting referred to in said communication.

Carried.

The following communications, from Hon. C. D. Gregory, County Judge, were received, and, on motion of Mr. Bender, ordered printed:

COUNTY COURT CHAMBERS,  
ALBANY, N. Y., May 1, 1900.

*To the Committee on Public Buildings, Board of Supervisors,  
Albany, N. Y.:*

GENTLEMEN.—At the last session of your body a sum of money was appropriated for the purpose of cleaning and painting the outside of the County Building, and since such appropriation was made I have invited proposals from different competent mechanics and painters to do the work, and I find it is utterly impossible to accomplish the proposed work for the sum appropriated. It will take at least three hundred dollars additional to the sum already appropriated, and I hereby recommend that your Board appropriate the further sum of three hundred dollars (\$300) for the purpose of doing said work.

Yours very respectfully,

C. D. GREGORY,  
*County Judge.*

COUNTY COURT CHAMBERS,

ALBANY, N. Y., *May 8, 1900.*

*To the Committee on Public Buildings, Board of Supervisors,  
Albany, N. Y.:*

GENTLEMEN.—I have received a requisition from the Appellate Division for the construction of a case, for the purpose of receiving and holding the records of the different departments of the Appellate Division of the Supreme Court. These records must be preserved, under the law, and it is necessary that the case should be erected for that purpose. I have received bids on the same, and the lowest is \$93.80. I hereby recommend that action be taken so that this amount may be paid for the purpose above specified.

Yours very respectfully,

CLIFFORD D. GREGORY.

NEW YORK, *May 1, 1900.*

The Second Annual State Commerce Convention will be held in the Assembly Chamber of the City Hall, in the city of Syracuse, N. Y., beginning at 10:30 a. m., on Wednesday, June 6, 1900.

The object of the convention is to consider deliberately all matters relating to commerce and manufactures in New York State, and incidentally the laws and usages of business which now make for progress or hinder it.

All chambers of commerce, boards of trade, business men's associations, mercantile exchanges and manufacturers' associations, whose members are interested in promoting commerce and manufactures in the State of New York, are invited to send such number of delegates as they are entitled to by their membership, as herein provided, to participate in the State Commerce Convention.

Each organization having 20 members may send 1 delegate.

Each organization having 100 members may send 2 delegates.

Each organization having 200 members may send 4 delegates.

Each organization having 350 members may send 6 delegates.

Each organization having 500 members may send 8 delegates.

Each organization having 650 members may send 10 delegates.

Each organization having more than 650, 10 delegates for first 650 and 1 delegate for each 200 above 650.

The Mayors of cities in the State of New York are invited to attend, and are also requested to appoint three delegates each in addition to such as may be appointed by local organizations.

The Presidents of incorporated villages are invited to attend, or appoint one delegate each.

The Boards of Supervisors in the counties in the State are invited to appoint one delegate each. Where not practicable to make such appointment, chairmen of 1899 Boards, where re-elected, are invited as delegates.

All delegates must be provided with credentials signed by the president and secretary of the organization they represent, or by the Mayor, President or Board of Supervisors appointing them.

Credentials must be made in duplicate.

Delegates will retain the duplicate and present it at the convention, and forward the original, with names, for printing in official program and list of delegates, on or before Thursday, May 31st, to Frank S. Gardner, secretary, 203 Broadway, New York city.

The work of the convention and a fair discussion of questions before it will require the attendance of delegates for two days, and delegates are requested to be prepared to remain.

The convention will devote its labors to State questions only, viz.:

“The State canals and their improvement,” and kindred questions, such as the need of canal terminal facilities, wharf charges, grain elevation, forest preservation as related to commerce and manufactures, etc.

Railroad questions — discriminations against New York State, terminal facilities, lighterage at New York, etc.

Taxation as affecting commerce and manufactures. Shall our laws encourage or discourage commerce and manufactures within this State, whether by corporations or otherwise? Is it wise to discourage the organization of corporations within our State? Do our laws now discriminate against our own merchants, manufacturers and producers and favor those of other States? etc.

The executive committee requests that all resolutions and propositions to be considered relating to questions before the convention be prepared in advance and full copies thereof be forwarded to the secretary of this committee, 203 Broadway, New York, and placed in his hands for printing on the program not later than Thursday, May 31st.

In order to expedite the proceedings of the convention the executive committee recommends:

First. That all resolutions be as brief as possible.

Second. That a rule be adopted by the convention excluding from consideration any resolution not furnished in advance for the official program, unless a resolution not printed on official program shall be received by a vote of three-fourths of the delegates present at a regular session of the convention.

Third. That leading speeches by any delegate, whether from manuscript or otherwise, be limited to thirty minutes, and second or other speeches by a delegate on the same subject be limited to five minutes, unless by a vote of the convention the time shall be extended.

The Trunk Line Railroad Association has made a reduced rate of fare for delegates from all points in the State to Syracuse and return. The rate is a fare and a third for the round trip, on certificate plan. Note Special.—Pay the full fare going to Syracuse, and when buying ticket be sure you ask for and obtain a rebate certificate from ticket agent.

If the ticket agent at your home station has no rebate certificates, buy your ticket only to the nearest station where such certificates are kept, and then buy your ticket to Syracuse, and at same time get a rebate certificate. Preserve this certificate and immediately on arrival at Syracuse deposit it with the secretary of the convention for necessary indorsement. Before leaving convention for home get the certificate from the secretary, and upon presenting it to ticket agent at Syracuse a return ticket can be purchased for one-third of regular fare.

The undersigned are pleased to announce that response to letter of inquiry indicates that the convention will be much larger than last year.

We request that you respond promptly, and hope your response will be favorable.

Organizations, Mayors and others entitled to do so are requested to send their full resolutions, and the names of their delegates, as soon as possible for the official program. (See rule 2 on page 2 hereof). Very respectfully,

John D. Kernan, Chairman, of Utica; G. Waldo Smith, of New York; Frank Brainard, of New York; Ludwig Nissen, of Brooklyn; Conrad Diehl, Mayor of Buffalo; Richard Humphrey, of Buffalo; J. H. Mitchell, Mayor of Cohoes; Charles A. Wardle, of Catskill;

Robert H. Cook, of Whitehall; A. C. Kessinger, of Rome; Frank S. Gardner, of New York; Executive Committee, State Commerce Convention, 1899. Frank S. Gardner, Secretary, 203 Broadway, New York, N. Y.

Mr. Hitchcock moved that the President of the Board be chosen as the delegate thereof to said convention.

Carried.

The following communications, from the State Engineer and Surveyor, were received, and, on motion of Mr. F. J. Smith, ordered printed.

STATE OF NEW YORK.

OFFICE OF THE STATE ENGINEER AND SURVEYOR,  
ALBANY, May 7, 1900.

LUTHER C. WARNER, *Clerk, Board of Supervisors, Albany, N. Y.:*

DEAR SIR.—I submit herewith plans, specifications and estimate of cost covering the improvement of the Loudon road between the north city line of Albany and the north line of the Methodist Episcopal church in the village of Newtonville, a distance of about 3.41 miles in the town of Colonie, Albany county, N. Y., being the road described in Petition No. 95, on file in this office.

If the plans, specifications and estimates herewith submitted are satisfactory to, and approved by your Board, a resolution should be adopted covering such approval and also providing for the appropriation and payment by your County Treasurer of one-half of the estimated cost of the work as given. I would suggest your drawing up a resolution following that given by Form E in the bulletin inclosed with the plans.

The plans herewith submitted are the original plans for the work, and if approved by your Board, as provided in section 6, chapter 115, Laws of 1898, you should indorse each sheet of the plans, in the place prepared there for the date of the approving resolution, with your signature, under seal. The plans and specifications should then be returned promptly to this office, and blue prints of the same will be furnished your Board to complete your files. Also send me a certified copy of the resolution adopted.

Very truly yours,

EDWARD A. BOND,  
*State Engineer and Surveyor.*

Following are the specifications and estimate referred to in said communication relative to improvement of the Loudon road:

### SPECIFICATIONS

For improving the Loudon road between the northerly city line of Albany and the north line of the M. E. church, in the village of Newtonville, a distance of 3.41 miles in the town of Colonie, Albany county, N. Y.

### WORK TO BE DONE.

The work to be done under these specifications will consist of grading the road to the established grade line, constructing the necessary drains, ditches and culverts, and laying a six-inch macadam surface 16 feet wide and all other work necessary for the proper fulfillment of the contract, according to the meaning and intent of the plans and specifications, which plans are a part hereof. The lump sum named in the contract will cover the cost of all the work and materials necessary for completion.

The contractor will be required to do all the clearing and grubbing, all excavations and embankments, all levelling, ditching, grading and surfacing, all masonry and stonework, and to furnish

all materials for the same. He will be required to build all waterways, drains and culverts, to clear away all rubbish which may obstruct the roadway or the waterways. He will be required to protect all fences and to repair or replace the same if they become damaged or destroyed by him or by his employees. In short, he will be required to furnish all the materials, implements and labor required to build and put in complete order for use, the said 3.41 miles of road. He will be required to remove from the road and from adjoining property all rubbish, all plank from old roadway and surplus materials pertaining to the work, which may have accumulated during its prosecution.

The whole work must be conducted and completed to the satisfaction of the State Engineer and Surveyor.

### GRUBBING AND CLEARING.

Where directed by the Engineer all trees, brush and undergrowth shall be removed for the entire area included within the right of way. All fencing material shall be carefully removed and deposited where the Engineer may direct. All stumps and roots shall be grubbed out. All wood and brush thus removed except fencing material shall be burned or removed from the ground so as to do no damage to the adjoining property.

### EXCAVATION.

All trees, stumps, brush, sod and roots within the roadbed and on the slopes shall be grubbed up and removed as the Engineer may direct.

The roadway shall be graded throughout its entire length to the width of 22 feet between ditches, and shall conform to the lines and grades, as shown on the plans, and as given by the Engineer.

The side ditches and slopes shall be neatly and truly cut with side slopes of section shown upon plans.

The bottom of ditches shall be cut true to the grades furnished by the Engineer in charge.

All rock, boulders or stumps shall be excavated to a depth of at least six inches below sub-grade. Wherever such rock or boulders have been excavated, a sufficient amount of clear, fresh earth, sand or gravel, approved by the Engineer, shall be furnished and placed so as to make the surface conform to the required sub-grade.

Where clay or rock bottom is encountered it shall be excavated to a uniform depth of three inches below sub-grade for the entire width between ditches, and the contractor shall supply and place a sufficient amount of clear loam, sand or gravel, approved by the Engineer, to make the surface of the macadamized portion conform to the required sub-grade and the shoulders beyond the macadamized portion conform to the lines and grades shown on the plans.

If quicksand, fine dust, spongy material or vegetable matter is encountered, it shall be removed to such depth as may be required by the Engineer and replaced by sufficient gravel, sand or loam, approved by the Engineer, to make a firm and stable foundation conforming to the required grade.

Where there is sod, or a hard, smooth surface upon the original surface of the ground, it shall be thoroughly broken up and all sod and vegetable matter removed before any embankment is formed thereon, so as to form a proper bond with the new materials.

Embankments shall be formed of clear earth or other materials, satisfactory to the Engineer, and shall be free from vegetable matter or refuse of any kind.

All embankments shall have side slopes as shown upon the plans, but in no case shall slopes be steeper than the "angle of repose" of the material. They shall be constructed in successive layers not exceeding six inches in thickness, and each layer shall be thoroughly rolled with a sectional iron roller weighing not less than two tons. The several sections of such roller to be about three inches wide on their faces and to vary alternately in diameter about three inches. The rolling shall be continued during the making of the embankment and until the Engineer directs it to be stopped. All embankments must be sprinkled as the Engineer directs, while rolling thereof is being done.

Surplus excavation shall be used to widen embankments or in such other places as the Engineer may direct.

All surfaces and slopes shall be left with neat even surfaces, and in conformity with lines and directions given by the Engineer. To insure the thorough draining of the road, all ditches must be dug and finished before any rolling will be allowed.

#### ROLLING SUB-GRADE.

The improvement shall be started at that end of the road furthest from the source of supply of the broken stone.

After the surface of the sub-grade has been properly shaped and before any broken stone is applied, the sub-grade shall be thoroughly rolled and compacted. This rolling shall be done with a macadam steam-roller nominally weighing about ten (10) tons and so built that it shall exert a pressure of about 500 pounds to the linear inch, measured across face of rollers. All hollows and depressions developing during the rolling shall be filled with material acceptable to the Engineer, and the rolling shall be continued until no depressions can be formed with the roller.

When the sub-grade consists of sand which will not consolidate when wet under action of roller, the road-bed shall be formed to the desired shape and then covered with one layer of broken stone, sufficient in quantity for fragments to touch each other. This shall then be wet and rolled until consolidated.

When the sub-grade consists of sticky clay too great in extent to be removed, this shall be formed to the desired shape and then covered with about four inches of sand. This shall then be rolled until consolidated.

No broken stone other than that above mentioned shall be placed on this sub-grade until the latter has been accepted by the Engineer.

### UNDERDRAINS — VITRIFIED PIPE AND POROUS TILE.

Lateral underdrains shall be provided on one or both sides of the road, where shown on the plans, to drain flat and wet portions of the road.

For lengths of 500 feet and over these shall be of five-inch vitrified tile, first quality, salt glazed, free from blisters and cracks, straight and round.

No chipping shall be allowed to insert spigot end into bell.

The trench for the drain, two to four feet deep, shall be dug to the line and grade furnished by the Engineer. The bottom shall be covered with two or more inches of gravel or gravelly earth and the pipe shall be laid as fast as the trench is ready.

The minimum slope for lateral drains shall be two-tenths of a foot per hundred feet, except in special cases where one-tenth foot per hundred feet may be used with extreme care in laying.

Each length of pipe shall be laid with the bell up-stream.

The lower one-third of each joint shall be filled with mortar formed of equal parts of American Portland cement and sand; the

upper two-thirds of the bell shall be filled with a roll of oakum, pushed in after pipe is laid.

The pipe shall be covered as laid, with six inches or more of gravel or porous earth, placed, packed and tamped around, under and over it, and the trench shall then be filled with the best available material, not clay. During the laying of the pipe, and until the completion of the drain, there shall be kept inside of the drain a close fitting bunch of burlap fastened securely around the end of a four-foot handle; this shall be drawn forward as each joint is added in order to remove any mortar which may project inward at the joints, and to prevent any stones or other obstructions from being left within the drain.

POROUS TILE may be used, when so shown on the plans, for the shorter side-drains or for transverse drains; where so used, the tile must be cylindrical, of first quality, well burnt, cherry color, straight, sound and free from cracks. The trench must be fitted to receive the tile by cutting its bottom accurately to grade, with a special scoop made to fit the shape of the tile. The ends of the tile shall be laid in close contact, and each joint shall be covered with a piece of burlap twelve inches square, folded twice.

The trench shall be filled as provided above for laying vitrified pipe.

### SAMPLES OF BROKEN STONE.

The contractor shall be required to submit with his bid samples of the stone which he proposes to use in the construction, and all stone which the Engineer shall consider to be inferior in quality to the submitted sample will be rejected.

### QUALITY OF BROKEN STONE.

The broken stone and screenings must be of hard and compact texture and of uniform grain. They must be broken as nearly cubical as possible, and be screened through a rotary screen having three sections each at least six feet long and each containing circular holes of one size which will produce stone of the sizes herein specified. They must have on all sides a rough surface obtained by fracture. Water-worn pebbles or crushed cobblestone will not be accepted. Disintegrated and weather-worn stone from the surface of a quarry will not be accepted. The stone for the different courses must be thoroughly cleaned before crushing and well screened, clean and free from injurious matter of every nature.

## KIND AND SIZES OF BROKEN STONE.

The broken stone shall be of two courses. The bottom course will be four inches thick and may consist of trap rock, granite, or any of the harder grades of limestone, broken in sizes varying from a minimum of one and one-half inches to a maximum of three inches in their longest dimensions.

The top course shall be two inches thick after rolling and shall consist of trap rock broken in sizes varying from a minimum of one inch to a maximum of two inches in their longest dimensions.

Limestone screenings not exceeding one-half inch in size and free from all dirt shall be added to fill all interstices that cannot be filled by the rolling or compacting of the other stone. Such screenings must be free from earth, sand, loam, or vegetable matter and shall contain all the dust of fracture.

## SPREADING AND ROLLING.

After the earth sub-grade has been completed as specified and has passed the inspection of the Engineer, a layer of broken stone of the size and quality hereinbefore specified for the bottom course and of such depth as will when rolled make a course four inches thick, shall be spread evenly over the prepared sub-grade, using, preferably, spreader-wagons therefor. The roller shall then be rolled first along the edge of the stone lapping upon the shoulder about six inches and going backward and forward several times on each side before rolling the center. The lower course should be rolled about forty times dry, or until the stones do not wave ahead of the roller. Screenings should then be spread uniformly over the surface to a depth of one-half inch by means of a spreader-wagon, which can be set to distribute the screenings in any desired quantity over the surface of the roadway. In the absence of such a spreader-wagon, the screenings shall be dumped in piles at proper intervals along the side of the roadway upon the wings, with plank set on edge against the stakes to prevent the piles of screenings from sliding into the ditch. In no case shall the screenings be dumped directly in mass upon the crushed stone, but they shall be spread uniformly by spreader-wagon or by shovels. The screenings shall then be rolled dry until they have nearly all disappeared, when another coat of screenings shall be spread and wet with sprinkler and rolled, adding more material if necessary until all of the voids are filled, leaving the surface free from screenings in all places.

The top course of stone shall then be spread, preserving the grade and crown as described for the bottom course. Roll the top course ten times dry and then cover it with dry screenings about one inch deep and roll ten times dry, after which take a section not over 300 feet long and saturate with water, following with the roller; sufficient amount of water shall be put on to fill all of the voids or until it shows on the surface, when proceed with the rolling until a grout has been formed of the screenings, stone-dust and water. After this grout has filled all of the voids, it will appear on the surface in patches.

The rolling shall continue until this grout can be pushed in, a wave before the wheels of the roller. It will be necessary to keep putting on water from time to time to preserve the condition described and to prevent the stones picking up on the wheels; one sprinkling being enough at one time after the road has been once saturated with water.

During the progress of the rolling and sprinkling, the screenings shall be swept about with brooms of rattan or steel to facilitate the thorough filling of the interstices and the screenings will in many places work down into the voids of the stone, leaving none on top. A second coat of screenings shall then be spread on these spots wherever needed, using an ordinary wagon for carrying the supply of screenings.

After the wave has been produced over the whole section of the road, screenings shall be again spread where required to leave them three-eighths of an inch deep for a wearing surface.

The road shall then be left for forty-eight hours, or longer if required, until the surface has dried so that the roller can pass without sticking, but the road will yet be moist enough to pack well. It shall be again rolled for about ten times dry and then sprinkled twice, following with the roller as long as possible without picking up the surface. This portion of the road shall then be left to dry for a time varying from two days to a week, when it may be opened to travel.

As soon as a section of 100 feet in length shall have been completed in compliance with these specifications and has dried as described, it shall be thoroughly sprinkled at least once a day for thirty days. At any time during this period, if it is the opinion of the Engineer that a better result can be obtained by going back on the finished work with the roller, this shall be done. Ordinarily this should be done every four days, rolling the section about five times. Rainy days shall be devoted to rolling the finished work.

## METHOD OF CARRYING ON THE WORK.

The work shall be carried along together where practicable, the fine grading and rolling of sub-grade being done just ahead of the lower course of stone and not exceeding 500 linear feet in advance, and as soon as 1,000 linear feet of the lower course of stone has been put on it shall be followed up with the top or finishing course, and at no time shall the lower course be over 1,000 linear feet in advance of the top of finishing course.

The screenings used in both courses of stone shall be delivered in advance of the stone and piled along on the shoulders in regular piles containing the required amount necessary to complete the work, and shall in no case be dumped upon the road.

Where it is practicable a driveway shall be maintained on one side of the improved portion of the road that it may not be necessary to haul material for the top course the full length of the lower course that has been rolled.

## DEPTH AND WIDTH OF PAVEMENT.

The pavement when completed shall be 16 feet in width and shall be at least six inches in depth, as is required by the specifications, and of such crown and form of gutter as are shown on plans; and in any case the thickness on the pavement is to be determined on a line at right angles to the grade and crown.

NO ALLOWANCE WILL BE MADE FOR ANY MATERIAL DRIVEN INTO THE SUB-GRADE BY ROLLING, OR MISTAKE MADE BY CONTRACTOR IN EXCAVATING OR FILLING. The use of a proper roller, rammers or other suitable implements is to be substituted for that of the steam roller when the Engineer so directs.

## EXTRA MATERIAL FOR MAINTENANCE.

Where called for in the estimate of quantities, in addition to the crushed trap and screenings of limestone used in the work above described, there shall be also provided sufficient quantities of each to form at intervals of 200 feet, piles of crushed trap and of limestone screenings; each pile to be about 3 feet by 6 feet and to be neatly formed at one side of road and to contain about one cubic yard of crushed trap and one-fifth cubic yard of screenings.

No cement will be used in any part of the masonry until the Engineer shall have approved it. It must be delivered in tight barrels or bags, as the Engineer may direct, and thereafter be properly protected from the weather and from moisture. Samples of the proposed sand shall be collected by the Engineer and tested at Albany, and the Engineer shall direct in what manner it shall be screened and washed if necessary.

Special directions will be given by the Engineer as to the delivery of cement and as to the time and facilities required for test-

ing the cement and sand previous to use in the work. No cement or sand will be used except in compliance with these directions. All facilities required by the Engineer for securing tests must be afforded by the contractor.

All cement offered for use in any work shall be sampled by an agent of the State Engineer's department. Such samples will be collected by the Engineer immediately on delivery of cement at site of work, and contractors will promptly notify the Engineer of the receipt of cement in order that no delay may be had in the sampling thereof. Samples from every tenth barrel or bag will be forwarded to the cement testing office in Albany, and will be subjected to the following tests; and any cement failing on either of them may be rejected, though further right is reserved to reject any and all cements the qualities of which have not become well known through prior use in State work or elsewhere.

### CLAUSES OF GENERAL APPLICATION.

1. The plans and specifications are a part of the contract and will be held to cover any and all work that could be reasonably inferred as needed, taking the two together for a complete and workmanlike job. Work shown on the plans and not mentioned in the specifications or vice versa will be done the same as if shown by both, when and where required.

2. All work will be neatly cleaned up on completion, according to the Engineer's directions, and be left in a neat and orderly condition ready for use.

3. The contractor hereby assumes all risks and liabilities for accidents or damages that may accrue to persons or property during the prosecution of the work, by reason of the negligence or carelessness of himself, his agents or employees.

4. The successful bidder shall satisfy the State Engineer, before the contract is awarded to him, that he has, or will promptly provide suitable and proper men, and all tools and machinery for each of the different kinds of work.

5. Should any work be required, that in the judgment of the State Engineer is not included under these specifications, or not covered by the prices named in the contract, such work shall be done pursuant to the State Engineer's written direction, after the price therefor shall have been agreed upon.

6. The right is reserved to make such changes in the plans or specifications as may, from time to time, appear necessary or desirable, and such changes shall in no wise invalidate this contract. Should such changes be productive of increased cost to the contractor, a fair and equitable sum therefor, to be agreed upon before such changed work shall have been begun, shall be added to the contract price, and in like manner deductions shall be made.

7. The contractor shall, without extra compensation, grade a safe, proper and workmanlike connection with all intersecting public or private roads or driveways, according to the Engineer's directions.

8. The work shall progress in such manner and at such time as the Engineer may direct.

9. All material which may be rejected shall at once be removed from the vicinity and replaced by material of approved quality.

shall prosecute to full completion in the manner and time specified. Any workman whom the Engineer may deem incompetent or unfit for duty shall be at once discharged.

11. Should the contractor at any time fail or refuse to comply with these specifications, the State Engineer, three days after giving written notice to the contractor, may purchase necessary materials and employ proper workmen and perform the work; the cost of such materials and labor being deducted from the contract price, as the State Engineer may decide.

12. Wherever the word "Engineer" is used in these specifications, it is understood to mean the State Engineer and Surveyor or his representatives in charge of the work.

### COMMENCEMENT OF WORK.

Work must be started within ten days after the signing of the contract.

### COMPLETION OF WORK.

All road improvement to be completed by October 15, 1900. If from any cause the entire contract cannot be completed by October 15, the work shall be arranged so that it may be closed down by that date, bringing the top course up within twenty-five feet of the end of the lower course and then left to be completed the following season.

### SPECIAL.

The contractor will conform to all the provisions of chapters 514, 516 and 444 of the Laws of 1897, and chapter 567, Laws of 1899, to which special attention of bidders is called regarding rates of wages, hours of labor and times of payment of employees, and the sub-letting of contracts.

### INSTRUCTIONS TO BIDDERS.

1. Bids will be made upon the blank form which follows these specifications; which specifications, with the original bid, will be attached to and form a part of the contract.

2. Each bid shall be accompanied by a New York draft or a certified check, payable at sight to the order of the State Engineer and Surveyor for 5 per cent. of the amount of the proposal; which check shall be held until the execution of the contract.

The successful bidder who fails to enter into contract will forfeit his check.

When the contract has been made, the various checks will be returned to the bidders who deposited them.

3. The successful bidder must furnish a bond for the faithful performance of the work as provided for by law; such bond to be for the full amount of the contract, and with sureties and in form satisfactory to and approved by the State Engineer.

5. The place of residence of every bidder, and post-office address, with county and State, must be given after the signature.

6. One copy of the advertisement as published must be securely attached to, and will be considered as forming a part of, each proposal.

7. All blank spaces in the proposal and bond must be filled; and the addition in writing of any condition, limitation or provision will be liable to render the proposal informal and to cause its rejection.

8. No bids will be received after the time set for opening them.

9. The State Engineer and Surveyor reserves the right to reject any or all bids, and to disregard the proposal of any failing contractor.

10. Bidders are invited to be present at the office of the State Engineer and Surveyor in Albany when the bids are opened.

### REPORTS.

The following report was received, and, on motion of Mr. Hitchcock, ordered printed in the minutes:

*To the Honorable, the Board of Supervisors of Albany County:*

Gentlemen.— On December 22, 1899, having received the appointment, by resolution, as a committee to appear before the State Board of Tax Commissioners for the year 1900, and lay before said Board the claim of Albany County to a more just equalization, also to procure and verify sales of real estate made in Albany County for the year 1899, and file the same with the State Board of Tax Commissioners to comply with their request made November 15, 1897, that they may have information to enable them to

form a more just percentage of the equalized value of each and every county in the State, I would report as follows:

That your committee procured information as to the sale of 176 pieces or parcels of real estate in the County of Albany, and filed the same with the State Board of Tax Commissioners in March, 1900, giving them the amount sold for, and amount of assessment of 1899, as appraised on the different assessment-rolls. The Board of Tax Commissioners met in the Supervisor's room in April, as is the custom every two years, to make inquiry of assessors as to their mode of assessing real and personal property, and the testimony given by the different assessors should have convinced the State Board that your committee's contention was based on actual facts to secure a more just equalization.

There are 61 counties in the State, and 60 counties outside of Albany County are complaining of the benefits this county has received in equalization for the past two years over the other counties in the State.

Your committee appeared before the State Board at different times and urged the percentage at not less than 83 per cent., which the statement of sales and assessments would warrant.

The State Board of Equalization, at their meeting, fixed the rate that Albany County should pay of the State tax for year 1900 at 1 667-1000 mill as against 1 786-1000 for 1899, thus reducing Albany County 119-1000 mill for 1900, making a saving on the amount of assessment upon which the tax is levied of \$1,219.29. In my last year's report, I called your attention to the fact that the percentage in 1899 was the lowest for this county since the organization of the State Board of Assessors. This year shows the further reduction, as stated above.

All of which is respectfully submitted,

JOHN C. FELTMAN,

*Committee on State Equalization.*

Dated Albany, November 14, 1900.

The following act was introduced, read twice, and, on motion of Mr. Bender, referred to the Committee on Law:

AN ACT authorizing a conveyance of the property formerly occupied as a Jail and Jail yard, on Eagle and Howard streets, in the City of Albany, pursuant to the County Law:

Whereas the site of the County Jail was changed from the premises hereinafter referred to to the premises now occupied as

such in Maiden Lane in said City, and in connection with said change of site, and thereupon and thereafter the Board of Supervisors on June 1st, 1853, duly conveyed for nine thousand dollars to the Albany Hospital the premises formerly occupied as such Jail and Jail yard on the southeasterly corner of Eagle and Howard streets, in the City of Albany,

And whereas by said conveyance the use of said premises so conveyed was limited to hospital purposes, with a provision that said property revert to the County in case it be diverted from said use, upon the repayment of the consideration paid by said hospital.

And whereas the Board of Supervisors, by a resolution passed December 21st, 1898, after a report of the Committee on Public Buildings submitted December 19, 1898, refused to pay back said consideration of nine thousand dollars and take back said property.

And whereas said Albany Hospital desires to divert said property from the use of a hospital and to sell the same, and has erected new buildings elsewhere for hospital purposes, and it is advisable to obtain a further instrument in the nature of a deed to remove any doubts as to said title, and to release the rights reserved in said conveyance to the County of Albany, now, therefore, be it

Resolved, by the Board of Supervisors of the County of Albany, that the President of this Board be and he hereby is authorized by and on behalf of this Board to execute, attach the seal of this County and deliver to the Albany Hospital a deed of release or quit-claim of said real estate on the southeast corner of Howard and Eagle streets in the City of Albany, New York, formerly used as a Jail and Jail yard, or to join with said Albany Hospital in a conveyance thereof to any purchaser of said premises.

Be it further resolved that a certified copy of this preamble and resolution be delivered to said Albany Hospital.

On motion of Mr. Courchaine, the Board adjourned.

### PETITIONS.

The following petition was received, and, on motion of Mr. Angus, ordered printed and referred to the Committee on Erroneous Assessments.

*To the Honorable Board of Supervisors of the County of Albany:*

The petition of Abel G. Goldthwaite respectfully shows:

That your petitioner resides in the City of Troy, County of Rensselaer and State of New York, and is the owner of a certain lot of land situate in the first ward of the City of Watervliet (formerly Village of West Troy), County of Albany, and known upon the maps of said village, filed in the Albany County Clerk's office, as lot No. 269 Athol street (now Third street).

That on or about the first day of January, 1889, the said premises were owned and occupied by one Christopher C. Schoonmaker, and as such owner was assessed by the assessors of the Town of Watervliet for the taxes of that year at the sum of seven dollars and fifty cents (\$7.50). That the said tax so assessed was not at that time paid by the said Christopher C. Schoon-

maker or his representatives, and said tax was duly returned to the County Treasurer as unpaid.

That the said County Treasurer returned the said tax as unpaid to the State Comptroller. That the said Comptroller on or about the 15th day of December, 1895, sold said premises for said unpaid tax to the County of Albany.

That thereafter and on the 9th day of July, 1900, your petitioner paid said tax, together with all interest and costs accrued upon the same, to the County Treasurer of Albany County, as the records on file in the office of the Treasurer of Albany County will more fully show.

That although he received a receipt for tax payment duly signed by said County Treasurer, yet no release was then given or has ever been given for such lien as may have been acquired by the said County under said Comptroller's tax sale of 1895.

Your petitioner further shows that on the 1st day of January, 1893, these premises were owned and occupied by one Thomas McClean, who had on or about the 1st day of January, 1889, purchased the same from said Christopher C. Schoonmaker.

That the assessors of the Town of Watervliet, in preparing the annual Town assessment for the taxes of the year 1893, assessed this said lot 269 Athol street as the property of Thomas McClean, as resident owner thereof, and at the same time assessed the same lot to Christopher C. Schoonmaker, as nonresident owner thereof, as the records on file in the office of the County Treasurer of Albany County will more fully show.

That the said tax assessed against the said Thomas McClean was paid, but that the tax assessed on the same property against Christopher C. Schoonmaker, being a double assessment on the same lot, and erroneous, was not at that time and never has been paid.

That the said last-mentioned tax was returned to the County Treasurer as unpaid. That the said County Treasurer at a tax sale held on or about the 17th day of September, 1894, sold the said premises to Albany County for said tax, as an unpaid tax, although the said tax was a double assessment upon said lot 269 Athol street, and was erroneous.

That by reason of said tax sale the said County of Albany has an apparent but not a just, equitable, or legal lien against said lot.

Wherefore, your petitioner prays that your honorable board will release to him any interest that said County of Albany may have

acquired by virtue of the above set forth tax sales, and authorize and direct the County Treasurer to transfer to your petitioner by deed all such interest.

ABEL G. GOLDTHWAITE.

STATE OF NEW YORK, }  
County of Rensselaer, } ss.:

Abel G. Goldthwaite, being duly sworn, deposes and says, that he is the petitioner herein and has read the foregoing petition and knows the contents thereof; that the same is true to his own knowledge, except as to the matters therein alleged upon information and belief, and as to those matters he believes it to be true.

ABEL G. GOLDTHWAITE.

Sworn to before me this 15th  
day of November, 1900.

HENRY A. KENNEY,  
Notary Public.

The following petition was received, and, on motion of Mr. C. Haverly, ordered printed:

*To the Honorable, the Board of Supervisors of Albany County:*

We, the undersigned, composing the Board of Assessors of the Town of Westerlo, in said County of Albany, do hereby petition your honorable Board that the following property be placed upon the assessment-roll of said Town of Westerlo for the year 1900, it having been omitted from said assessment-roll by mistake.

The property of Henry Arnold, assessed by us, 85 acres, at \$1,000; also John Baily, 90 acres, at \$600.

Dated, Westerlo, September 22, 1900.

The petition of Michael J. Kearney respectfully shows that he resides in the City of Troy, N. Y., and is the owner of a certain piece of property in the Town of Colonie, Albany County, N. Y., described as follows: "Lot, west side Second avenue, bounded north by John Hennessy; east by Second avenue; south by Water-vliet city line; west by Second avenue alley." That in the year 1898 said property was assessed on the assessment-roll of said Town to Michael F. Kearney, and valued at the sum of \$200, and that, as appears by the said assessment-roll and tax book on file in the office of the County Treasurer of said County, the taxes on said property were paid on the 22d of April, 1899; that thereafter and during the year 1899 said property was erroneously reassessed on the assessment-roll of said Town, under the name of Michael Kearney, valued at the sum of \$200, as property on which the taxes of the year 1898 had not been paid, and was also reassessed on said assessment-roll under the name of Michael Kearney and valued at the sum of \$50, as property on which the

taxes of the year 1898 had not been paid; that your petitioner has also paid the taxes levied and assessed upon said property for the year 1899; that said property as so reassessed was, on the 12th day of September, 1900, sold by the County Treasurer of said County to the County of Albany; and that said reassessments and said sale were erroneous and void. Wherefore your petitioner prays for the adoption by your honorable body of the following resolution:

Whereas, It appears by the petition of Michael J. Kearney and by the assessment-rolls of the Town of Colonie, as filed with the County Treasurer of this County, that the property of Michael J. Kearney, described as follows: "Lot, west side Second avenue, bounded north by John Hennessy; east by Second avenue; south by Watervliet City line; west by Second avenue alley," was erroneously reassessed on the assessment-roll of said Town for the year 1899 under the name of Michael Kearney, and valued at the sum of \$200, as property on which the taxes of the year 1898 had not been paid; and was also erroneously reassessed on said assessment-roll under the name of Michael Kearney, and valued at the sum of \$50, as property on which the taxes of the year 1898 had not been paid; and,

Whereas, It appears that said property as so reassessed was, on the 12th day of September, 1900, sold by the County Treasurer of said County to the County of Albany; now, therefore, be it

Resolved, That said sales be, and the same are, hereby cancelled and set aside and declared to be null and void; and that said County Treasurer be and he is hereby directed to cancel and strike from the books in his office the record of said sales.

MICHAEL J. KEARNEY.

Dated, November 23, 1900.

Petitioner.

LUTHER C. WARNER, *Clerk, Board of Supervisors, Albany, N. Y.:*

Dear Sir.—On February 7 and 8, 1900, a convention of delegates, representing the Boards of Supervisors of this State, was held in Albany for the purpose of complying as nearly as possible with the provisions of section 15 of chapter 115 of the Laws of 1898, which section provides for the holding of meetings in each county in the State with reference to the subject of improvement of public highways by means of State aid. This convention was called by the State Engineer in view of the fact that for lack of time he had been unable to hold meetings in each county; and also from the belief that a convention attended by representatives from all sections of the State would prove of great value to all concerned, permitting as it would of the full discussion and interchange of opinions by the representatives from the different counties.

As will be seen from the copy of the report of the proceedings herewith inclosed, nearly all of the counties were represented at the convention.

In compliance with numerous requests, I have decided to invite Boards of Supervisors to send delegates to a convention to be held in this city during January or February, 1901, and I would be very glad if you would kindly call this matter to the attention of your Board and urge that a resolution be adopted, naming three or more delegates to attend said convention; and in naming these delegates, I wish to impress upon the Board the fact that it is desired to have delegates who will express the opinion of their localities, whether favoring or opposing the State aid in road construction.

I enclose herewith a blank form of resolution which I would be glad to have adopted, and if you will kindly fill in the names and addresses of the delegates appointed, I will see that they are notified in due time when the date of the convention is finally settled.

If your Board is not in session upon receipt of this letter, will you kindly inform me when it will convene?

Very truly yours,

EDWARD A. BOND,  
State Engineer and Surveyor.

## RESOLUTIONS.

By Mr. F. J. Smith:

Whereas, the Board of Supervisors has for many years accepted the annual invitation of the Superintendent of the Penitentiary to visit and inspect that institution, and

Whereas, the large large number of outsiders who have taken advantage of the invitation thus extended and have imposed upon the hospitality provided by the Superintendent for the entertainment of the members of the Board has rendered the condition of the prison so crowded as to make a thorough inspection or the transaction of any business utterly impossible; therefore be it

Resolved, that the thanks of this Board be extended to Superintendent Dearstyne for his kind invitation and that the same be accepted only on behalf of the Penitentiary Committee of this Board, which committee is hereby authorized and directed to visit the Penitentiary on the afternoon of Tuesday, November 27th, make a thorough inspection of the same and report their findings to this Board.

Adopted unanimously.

By Mr. Bender:

Resolved, That from and after the 1st day of January, 1901, the salary of the Court Librarian of the Law Library of the County of Albany be, and the same is hereby fixed at the sum of twelve hundred dollars per annum.

By Mr. Peasley:

Whereas, By omission of the Assessors of the Town of Berne, property in said town, known and described as belonging to Robert J. McCauley, consisting of 50 acres, and valued at the sum of \$700,

and bounded north by I. Becker; east by Robert J. McCauley; south by William Pitcher; and west by Charles Zimmer, has not been placed upon the assessment-roll of said town for the year 1900; therefore, be it

Resolved, That the Supervisor of said Town of Berne be authorized and directed to add to the assessment-roll of the said town for the present year the above described property; said addition to said assessment-roll being at the request and upon the petition of the Board of Assessors of the said town.

Adopted by the following vote:

Ayes — Messrs. Angus, Bedell, Bender, Bloom, Carhart, Coggins, Coon, A. S., Coon, C., Corrigan, Courchaine, Delehanty, Garland, Gove, Harcourt, Haverly, W. By Mr. A. S. Coon:

Whereas, This Board is in receipt of a communication from the State Engineer, calling attention to the provisions of section 15 of chapter 115 of the Laws of 1898, which section provides for public meetings in reference to the subject of highway improvement, and

Whereas, This Board recognizes the advisability of wise action on this important subject and proposes to send delegates to represent it at such meeting:

Resolved, That the following are named as delegates to represent this Board at a meeting called by the State Engineer to be held in the City of Albany, at a date to be named during January or February, 1901:

### GENERAL ORDERS.

On motion of Mr. Bender the Board resolved itself into a Committee of the Whole, for consideration of an act introduced at the

session held November 19, 1900, entitled "An Act authorizing a conveyance of the property formerly occupied as a Jail and Jail yard, on Eagle and Howard streets, in the City of Albany, pursuant to the County Law."

The President called Mr. Bender to the Chair.

The Chairman directed the Clerk to read the following bill and called for amendments or objections.

AN ACT authorizing a conveyance of the property formerly occupied as a Jail and Jail yard, on Eagle and Howard streets, in the City of Albany, pursuant to the County Law:

Passed by the Board of Supervisors of the County of Albany, pursuant to chapter 18 of the General Laws, known as the County Law, at a regular session held on the 26th day of November, 1900, 32 Supervisors being present and voting therefor; none voting against the act.

Whereas, the site of the County Jail was changed from the premises hereinafter referred to to the premises now occupied as such in Maiden Lane in said City, and in connection with said change of site, and thereupon and thereafter the Board of Supervisors on June 1st, 1853, duly conveyed for nine thousand dollars to the Albany Hospital the premises formerly occupied as such Jail and Jail yard on the southeasterly corner of Eagle and Howard streets, in the City of Albany,

And whereas by said conveyance the use of said premises so conveyed was limited to hospital purposes, with a provision that said property revert to the County in case it be diverted from said use, upon the repayment of the consideration paid by said hospital,

And whereas the Board of Supervisors, by a resolution passed December 21st, 1898, after a report of the Committee on Public Buildings submitted December 19, 1898, refused to pay back said consideration of nine thousand dollars and take back said property,

And whereas said Albany Hospital desires to divert said property from the use of a hospital and to sell the same, and has erected new buildings elsewhere for hospital purposes, and it is advisable to obtain a further instrument in the nature of a deed to remove any doubts as to said title, and to release the rights reserved in said conveyance to the County of Albany, now, therefore, be it

Resolved, by the Board of Supervisors of the County of Albany, that the President of this Board be and he hereby is authorized

by and on behalf of this Board to execute, attach the seal of this County and deliver to the Albany Hospital a deed of release or quit-claim of said real estate on the southeast corner of Howard and Eagle streets in the City of Albany, New York, formerly used as a Jail and Jail yard, or to join with said Albany Hospital in a conveyance thereof to any purchaser of said premises.

Be it further resolved that a certified copy of this preamble and resolution be delivered to said Albany Hospital.

No objections or amendments being offered, Mr. A. S. Coon moved that the Committee rise, report the bill and recommend its passage.

Carried.

The President resumed the Chair, and Mr. Bender, Chairman of the Committee of the Whole, reported the unanimous decision of the Committee in favor of the bill, and recommending its passage.

Mr. Lindsay moved that the report of the Committee be received, and that the bill be ordered to a third reading.

Carried.

The act was then passed by the following vote:

Ayes — Messrs. Angus, Bedell, Bender, Bloom, Carhart, Coggins, Coon, A. S., Coon, C., Corrigan, Courchaine, Delehanty, Fleming, Garland, Gove, Harcourt, Haverly, W. J., Hess, Higgins, Hitchcock, Hunter, Lindsay, Moss, Peasley, Peck, Platz, President, Rauscher, Roche, Schupp, Smith, F. J., Vanderpoel, Winne — 32.

#### REPORT OF SELECT COMMITTEE.

Mr. Angus, of the Special Committee appointed by the last Board, presented the following report, which was received, ordered printed and referred to the Committee on Almshouse:

ALBANY, N. Y., *November 26, 1900.*

*To the Honorable, the Board of Supervisors of Albany County:*

Gentlemen.—Your Committee, which was appointed by the last Board to inspect the Albany County Almshouse buildings and grounds and to report to this Board with recommendations, hereby respectfully reports as follows:

On October 3, 1900, your Committee, accompanied by Hon. Jas. H. Blessing, Mayor of the City of Albany, Supt. E. B. Cantine, and Deputy Supt. Rockenstyre, made a careful inspection of the buildings, sheds, grounds and hospital building, known as the Albany County Almshouse.

The buildings are old, and for many years past have had little if any repair; but the inmates are comfortably housed and fed, and the rooms and wards are clean. The dining-rooms in the men's building and women's building, however, are dark and gloomy, being situated in the basement, and could be vastly improved. The laundry is in a dilapidated condition, and there are

no modern bathing facilities except the old fashioned narrow iron bath tub, in which it is very hard for the old and decrepit to bathe.

The old building known as the chapel building is in a very bad state of repair and has been pronounced unsafe by the chief of the fire department of the City of Albany. The walls are bulging and crumbling in several places, and the building should be torn down at once.

In the building known as the smoker, there is no water-closet, and this of course should be remedied by placing in that building a proper flush closet. The old shed in the rear of the smoker is in a state of decay and is falling down.

The men's building should be repaired by pointing up the bricks and repairing the slate roof and painting the building.

The sewerage from all of the Almshouse buildings empties into a ravine in the rear of the group of buildings and to the south in front of the same. This sewerage is left to filter through the ground, and at certain times of the year these pools formed by the refuse from the sewerage are very offensive in odor and a menace to health.

Your Committee does not feel at this time that it would be wise for the County to erect new Almshouses, thereby entailing a large expense to the taxpayers, but we believe and recommend that such repairs be made upon the buildings now in use as may be needed, and we suggest:

First. That the old chapel building, which is in a dangerous condition, be razed and a new plain building be erected upon this site in accordance with the architect's plans hereto annexed, as recommended by the State Board of Charities and to be approved by them.

Second. That all the buildings be connected by a drain which shall empty into the sewer on Lexington avenue, in front of the Almshouse.

Third. That the old shed in the rear of the smoker building be torn down or repaired, and that the remaining buildings be suitably repaired where needed.

Your Committee believes that by making these improvements and with a comparatively small expenditure each year thereafter, the Albany County Almshouse may be maintained in its present location for years.

Your Committee also recommends that an extension be added to the Albany County Hospital, containing wards for consumptives, male and female, and for contagious diseases other than

smallpox, and that the work be done in accordance with the plans hereto annexed.

Respectfully submitted,

PETER WALKER,  
EDWARD A. PECK,  
CHARLES M. ANGUS,  
Committee.

### COMMUNICATIONS.

The following communication was received, and, on motion of Mr. Angus, ordered printed and referred to the Committee on Almshouse:

ALBANY, N. Y., *November 26, 1900.*

*To the Honorable, the Board of Supervisors, Albany, N. Y.:*

Gentlemen.—I beg to call your attention to the fact that the Albany County Almshouses are badly in need of repairs, and that it belongs to your Honorable Board to take immediate steps toward putting them in a proper condition, as required by the State Board of Charities, in conformity with the laws of the State of New York. It has been many years since any appropriation or expenditure has been made toward remedying the decay caused by time and use on these buildings.

During the past year many small repairs have been made, the expense thereto being paid out of the annual maintenance fund. I beg, therefore, to recommend that early action be taken toward remedying the existing conditions, as reported to you by your Committee, appointed by the last Board of Supervisors, and insisted upon by the State Board of Charities.

Respectfully submitted,

EDWARD B. CANTINE,  
Superintendent Albany County Almshouse.

The following communication was received, and, on motion of Mr. Bender, ordered printed and referred to the Committee on County Improvements:

*November 23, 1900.*

MR. LUTHER C. WARNER, *Clerk of Board of Supervisors, Albany, N. Y.:*

Dear Sir.—On May 8, 1900, the Board of Supervisors of Albany County adopted a resolution approving of the plans for

the Loudon road, and appropriating \$15,950, being one-half of the estimated cost of said road, amounting to \$31,900. On June 25, 1900, a contract for the construction of said road was entered into between the State and Thomas H. Karr, the contract price being \$27,400. Work was promptly commenced and has been diligently and faithfully prosecuted up to the present time. It being deemed inexpedient for the best interests of the road to continue this construction work during the cold weather, the contractor has been directed to discontinue work for this season.

At this time, about one-third of the road has been completed sufficiently to be open to traffic. The remaining two-thirds has been partially graded and stone delivered in readiness to promptly complete the road in the spring.

Shoulders and gutters have not been constructed, as it was not necessary to do this at the present time, and it was thought best to defer it also until spring.

It is estimated that about 60 per cent. of the entire work has been performed.

When the road was commenced the material was found to be of such a light and unstable nature that it seemed utterly impossible to build the road. This unstable material was underneath a crust which had been formed on the road, and the existence of it could not be foreseen when the survey was made. It therefore became necessary to haul in selected material to not only form the shoulders but also to make the placing of macadam at all possible.

Under the specification we have made the contractor fill in the subgrade with this selected material, and which has cost him a considerable sum. We cannot, however, hold him to do the same with the shoulders, as that is a different matter and not covered by the specification, owing to the fact that the contingency could not have been anticipated.

Since the survey was made tremendous gulleys have formed beside the road, near the Albany city line, caused by heavy rains. Although the new culverts designed on this road were of the same capacity of those existing on the old road, it is believed that these will prove inadequate, considering the damage by the above-mentioned storm, and it is deemed advisable to construct some new culverts to protect this part of the road.

There is no doubt that the extra work above specified is an absolute necessity, and will prove of great benefit to the road, as the finished portion is in excellent condition.

The total cost of the above-described work will amount to \$5,215.

The contract price of the work is.....	\$27,400	
Extra work above specified.....	5,215	
Engineering, etc. . . . .	2,894	
		<hr/>
Total. . . . .	\$35,509	
One-half of which would be.....		\$17,754 50
The County has already appropriated.....		15,950 50
		<hr/>
Leaving. . . . .		\$1,804 00

which would be necessary for the county to appropriate in addition to the \$15,950, and if the county will appropriate this additional sum, the State will also appropriate \$1,804, as its share of this extra expenditure.

We hand you herewith a plan showing new culverts to which reference has been made and the blue prints showing the location of the same.

I would be glad to have this matter presented to your Board at as early a date as possible and trust that you will kindly notify me promptly in regard to the action taken by them.

Very truly yours,

EDWARD A. BOND,  
State Engineer and Surveyor.

The following petition was received and, on motion of Mr. C. Coon, ordered printed and referred to the Committee on Erroneous Assessments:

*To the Board of Supervisors of the County of Albany:*

The petition of Elizabeth Dunn respectfully shows:

That she is now the owner of lot Number 1036, on the east side of West street, in the Town of Green Island, in the County of Albany, N. Y.

That, at the time your petitioner purchased said property, in the year 1896, it was owned by the heirs of Patrick Condron, late of the Town of Green Island, N. Y., deceased, of whom your petitioner is one, and your petitioner supposed that the tax of the year 1896, levied for town and county purposes, had been paid by some of the other heirs of said deceased, but said taxes were not in fact paid, and, pursuant to the statute in such case made and provided, said lot Number 1036 West street, above mentioned, was sold to the County of Albany, at the tax sale held in the year 1898, and a conveyance thereof was duly made by the County Treasurer of Albany County, to said County of Albany, on the 19th day of October, 1899, and recorded in

Albany County Clerk's Office October 19, 1899, in Book of Deeds No. 276 1-2, at page 131.

That your petitioner had no knowledge, at the time of said tax sale, that the taxes on said property for the year 1896 were unpaid, and supposed, as above stated, that the other heirs of said deceased had attended to the matter, and your petitioner did not learn of said sale nor the conveyance made thereon until recently.

That your petitioner desires to redeem said property from the above-mentioned sale, and hereby offers to pay, upon the execution of a deed to her of said property by the County Treasurer of Albany County, of all right, title and interest in said property, acquired by said County of Albany by reason of said sale and conveyance above mentioned, the sum necessary to redeem said property from said sale, and for that purpose desires and requests that the following resolution be passed by the Board of Supervisors of Albany County:

*“Resolved*, That the County Treasurer of Albany County be and he hereby is authorized and directed to execute and deliver to Elizabeth Dunn, of the Town of Green Island, N. Y., a good and sufficient conveyance of all the right, title and interest which the County of Albany acquired and now has in and to Lot 1036 on the east side of West street, in the Town of Green Island, N. Y., by virtue of the sale of said lot to said County of Albany, in the year 1898, for unpaid taxes thereon, and the conveyance of said lot made upon such sale by Edward L. Barchley, County Treasurer of Albany County, to the County of Albany, dated October 19, 1899, and recorded October 19, 1899, in Albany County Clerk's Office, in Book No. 276½ of Deeds, at page 131, upon the payment by said Elizabeth Dunn to the said County Treasurer of Albany County, of the sum necessary to redeem said lot from said tax sale.”

### REPORT OF STANDING COMMITTEES.

Mr. Garland, of the Committee on Erroneous Assessments, presented the following report:

*To the Honorable the Board of Supervisors of the County of Albany:*

Your Committee on Erroneous Assessments, to which was referred the petition of Abel G. Goldthwaite, as found in the minutes of the session held November 21st, respectfully reports that, upon examination of the books in the office of the County Treasurer of this County, it finds the allegations of said petition to be true, and, therefore, recommends the adoption of the following resolution:

“Whereas, it appears that Abel G. Goldthwaite is the owner of a certain lot of land situate in the First ward of the City of Watervliet (formerly Village of West Troy), County of Albany, and known upon the maps of said village, filed in the Albany County Clerk's office, as Lot No. 269 Athol street (now Third street); that, in the year 1889, said property was assessed to Christopher C. Schoonmaker, then owner; that the taxes on said property, in said year, were returned by the County Treasurer to the State Comptroller as unpaid; that said Comptroller, on or about the 15th day of December, 1895, sold said premises for said unpaid taxes to the County of Albany; and that thereafter, and on the 9th day of July, 1900, said Goldthwaite paid said taxes, together with all interest and costs accrued upon the same, to the County Treasurer of Albany County: and

"Whereas, It appears that in the year 1893 said property was assessed to Thomas McLean, as resident owner, and to said Schoonmaker, as non-resident owner; thus making a double and erroneous assessment upon said property; that the taxes so assessed against said resident owner were paid; that the taxes so assessed against said non-resident were not paid; and that for said last-mentioned taxes said property was thereafter, and on the 17th day of September, 1894, sold by the County Treasurer to the County of Albany; now, therefore, be it

"Resolved, by the Board of Supervisors of the County of Albany, That the County Treasurer of Albany County be and he is hereby authorized and directed to execute and deliver to said Abel G. Goldthwaite a deed of the property above described."

Mr. Angus moved that the report be received and the resolution be adopted.

Carried by the following vote:

Ayes — Messrs. Angus, Bedell, Bender, Bloom, Carhart, Coggins, Coon, A. S., Coon, C., Corrigan, Courchaine, Delehanty, Fleming, Garland, Gove, Harcourt, Haverly, C., Haverly, W. Mr. Garland, of the Committee on Erroneous Assessments, presented the following report:

*To the Honorable the Board of Supervisors of the County of Albany:*

Your Committee on Erroneous Assessments, to which was referred the petition of Michael J. Kearney, as found in the minutes of the session held November 26, 1900, respectfully reports

that it has carefully examined into the matters set forth in said petition, and recommends the adoption of the following:

"Whereas, It appears by the petition of Michael J. Kearney and by the assessment-rolls of the Town of Colonie, as filed with the County Treasurer of this County, that the property of Michael J. Kearney, described as follows: 'Lot, west side of Second avenue, bounded north by John Hennessy; east by Second avenue; south by Watervliet City line; west by Second avenue alley,' was erroneously reassessed on the assessment-roll of said Town for the year 1899 under the name of Michael Kearney, and valued at the sum of \$200, as property on which the taxes of the year 1898 had not been paid; and was also erroneously reassessed on said assessment-roll under the name of Michael Kearney, and valued at the sum of \$50, as property on which the taxes of the year 1898 had not been paid; and,

Whereas, It appears that said property as so reassessed was, on the 12th day of September, 1900, sold by the County Treasurer of said County to the County of Albany; now, therefore, be it

Resolved, That said sales be, and the same are, hereby cancelled and set aside and declared to be null and void; and that said County Treasurer be and he is hereby directed to cancel and strike from the books in his office the record of said sales."

AN ACT authorizing a conveyance of the property formerly occupied as a Jail and Jail yard, on Eagle and Howard streets, in the City of Albany, pursuant to the County Law:

Passed by the Board of Supervisors of the County of Albany, pursuant to chapter 18 of the General Laws, known as the County Law, at a regular session held on the 3d day of December, 1900, 34 Supervisors being present and voting therefor; none voting against the act.

Whereas, the site of the County Jail was changed from the premises hereinafter referred to to the premises now occupied as such in Maiden Lane in said City, and in connection with said change of site, and thereupon and thereafter the Board of Supervisors on June 1st, 1853, duly conveyed for nine thousand dollars to the Albany Hospital the premises formerly occupied as such Jail and Jail yard on the southeasterly corner of Eagle and Howard streets, in the City of Albany,

And whereas by said conveyance the use of said premises so conveyed was limited to hospital purposes, with a provision that said property revert to the County in case it be diverted from said use, upon the repayment of the consideration paid by said hospital,

And whereas said Albany Hospital desires to divert said property from the use of a hospital and to sell the same, and has erected new buildings elsewhere for hospital purposes, and it is advisable to obtain a further instrument in the nature of a deed to remove any doubts as to said title, and to release the rights reserved in said conveyance to the County of Albany, now, therefore, be it

### PRESENTATION OF PETITION.

The following petition was received, and, on motion of Mr. C. Coon, ordered printed and referred to the Committee on Erroneous Assessments:

*To the Honorable the Board of Supervisors of the County of Albany:*

The petition of William Broderick respectfully shows that he is the owner of a certain piece of real property in the Town of Green Island, Albany County, N. Y., described as follows: "Lot No. 15 and two houses on the east side of George street, bounded as follows: On the north by Lot No. 16, on the south by Lot No. 14, east by Canal street, west by George street." That in the year 1898 said property was assessed to petitioner on the assessment-roll of said town, and valued at the sum of \$1,600; that as appears by said assessment-roll and tax-book on file in the office of the County Treasurer of said county, the taxes levied and assessed upon said property for said year, amounting to the sum of \$8.64, were paid by petitioner on the 25th day of January, 1899; that thereafter, and during the year 1899, said property was erroneously reassessed to petitioner on the assessment-roll of said town for said year 1899, as property on which the taxes of the year 1898 had not been paid; that petitioner has also paid the taxes properly levied and assessed upon said property for the year 1899; that said property as so reassessed was on the 12th day of September, 1900, sold by the County Treasurer of said county to the County of Albany; and that said reassessment and said sale were erroneous and void.

Wherefore, petitioner asks for the adoption by your honorable body of the following resolution:

Whereas, It appears by the petition of William Broderick and by the assessment-roll of the Town of Green Island, as filed with the County Treasurer of this county, that the property of said William Broderick, described as follows: "Lot No. 15 and two houses on the east side of George street, bounded as follows: On the north by Lot No. 16, on the south by Lot No. 14, east by Canal street, west by George street," was erroneously reassessed on the assessment-roll of said town for the year 1899, as property on which the taxes of the year 1898 had not been paid; and,

Whereas, It appears that said property, as so reassessed, was on the 12th day of September, 1900, sold by the County Treasurer of said county to the County of Albany; now, therefore be it

Resolved, by the Board of Supervisors of the County of Albany, That said reassessment of said property be and the same hereby is declared to be null and void; that said sale be and the same hereby is cancelled and set aside and declared to be null and void; and that said County Treasurer be and he is hereby directed to cancel and strike from the books in his office the record of said sale.

Dated November 27, 1900.

WILLIAM BRODERICK,

Petitioner.

Mr. Carhart, of the Committee on Penitentiary, presented the following report, which was received and adopted:

*To the Honorable the Board of Supervisors:*

Gentlemen.—Your Committee on the Penitentiary beg leave to report that, in pursuance of the resolution passed by you November 26th, this committee visited the Penitentiary on November 27th and thoroughly inspected the same.

We found the sanitary condition of the prison most excellent; the greatest cleanliness prevailing throughout the entire institution.

Upon the date of our visit we found the number of prisoners in confinement to be 380, of which 53 were from United States courts, 12 were New York State felons, 45 State tramps, 225 misdemeanants from other counties, and only 45 from Albany County.

We found that all contract work had ceased, and the large shops in which prisoners had formerly been employed and the prison made not only self-sustaining, but even a source of revenue to the county, were idle and unoccupied, with the exception of two large shops where the prisoners were sitting in idleness, there being no work on which they could be employed.

The south hall of the prison, containing 184 cells, was also closed.

In accordance with the provisions of chapter 440, Laws of 1896, all prisoners received at the Penitentiary are measured and photographed in accordance with the Bertillon system, and copies of these photographs and measurements are forwarded to the Superintendent of State Prisons. The work of photographing, measuring, indexing, etc., as required by this law, takes practically the entire time of one officer, and this, in connection with the cost of materials used in photographing, etc., causes a considerable expense, from which neither the Penitentiary nor Albany County receives any benefit. The expense of carrying on this work should certainly be borne by the State, and your committee would respectfully recommend that the representatives of this county in the State Legislature be requested to use their influence to secure legislation which shall relieve the Penitentiary of this expense by making it a charge against the State.

The average cost of maintenance of prisoners, including all expenses of the Penitentiary, during the past year, was about 53 cents per capita, while the amount received from the United States for the board of Federal prisoners and from the State for the board of felons and State tramps is but 30 cents per day. The twenty-two counties from which prisoners are received pay at the rate of \$2.25 per week for each prisoner.

From this it will be seen that unless remunerative employment can be devised for the prisoners from which additional revenue can be obtained this county will be virtually conducting a huge boarding-house, for the benefit of the State and other counties, in which prisoners are boarded and cared for at rates considerably below the actual cost.

Employment for the prisoners is a matter which requires immediate consideration. Aside from the financial aspect of the case, the mental, moral and physical welfare of the men demand that they should not be kept in idleness.

Your committee is advised that some of the contracts now existing with other counties will soon expire, and we would recommend that such contracts be not renewed at the present rate.

We cannot close this report without calling attention to the thoroughly businesslike manner in which the institution has been conducted during the past five years, and we feel that the thanks not only of this Board but of every taxpayer in the County of Albany are due the retiring Superintendent.

Dated December 5, 1900.

L. A. CARHART,  
W. J. HAVERLY,  
THOMAS H. FLEMING,  
Committee.

*To the Honorable the Board of Supervisors of the County of Albany:*

Your Committee on Erroneous Assessments, to which was referred the petition of William Broderick, as found in the minutes of the session held December 4, 1900, respectfully reports that it has carefully examined into the matters set forth in said petition and finds the statements therein contained to be in all respects true. It therefore recommends the adoption of the following:

Whereas, It appears by the petition of William Broderick and by the assessment-roll of the Town of Green Island, as filed with the County Treasurer of this county, that the property of said William Broderick, described as follows: "Lot No. 15 and two houses on the east side of George street, bounded as follows: On the north by Lot No. 16, on the south by Lot No. 14, east by Canal street, west by George street," was erroneously reassessed on the assessment-roll of said town for the year 1899, as property on which the taxes of the year 1898 had not been paid; and,

Whereas, It appears that said property, as so reassessed, was on the 12th day of September, 1900, sold by the County Treasurer of said county to the County of Albany; now, therefore be it

Resolved, by the Board of Supervisors of the County of Albany, That said reassessment of said property be and the same hereby is declared to be null and void; that said sale be and the same hereby is cancelled and set aside and declared to be null and void; and that said County Treasurer be and he is hereby directed to cancel and strike from the books in his office the record of said sale.

Dated December 6, 1900.

Mr. Garland, Chairman of the Committee on Erroneous Assessments, presented the following report:

*To the Honorable the Board of Supervisors of the County of Albany:*

Your Committee on Erroneous Assessments, to which was referred the petition of Elizabeth Dunn, as found in the minutes of the session held December 3, 1900, respectfully reports that it has carefully inquired into the matters set forth in said petition and recommends the adoption of the following:

Resolved, That the County Treasurer of Albany County be and he hereby is authorized and directed to execute and deliver to Elizabeth Dunn, of the Town of Green Island, N. Y., a deed of all the right, title and interest which the County of Albany acquired and now has in and to Lot 1036 on the east side of West street, in the Town of Green Island, N. Y., by virtue of the sale of said lot to said County of Albany, in the year 1898, for unpaid taxes thereon, and the conveyance of said lot made upon such sale by Edward L. Barkley, County Treasurer of Albany County, to the County of Albany, dated October 19, 1899, and recorded October 19, 1899, in Albany County Clerk's Office, in Book No. 276½ of Deeds, at page 131, upon the payment by said Elizabeth Dunn to the said County Treasurer of Albany County, of the sum necessary to redeem said lot from said tax sale, and upon the further payment of all other unpaid taxes upon said property as the same may appear upon the books in the office of said County Treasurer.

T. E. COGGINS,  
Committee.

Mr. C. Coon moved that the report be received and the resolution be adopted.

Carried by the following vote:

Ayes — Messrs. Angus, Bender, Bloom, Coggins, Coon, A. S., Coon, C., Courchaine, Fleming, Garland, Gove, Harcourt, Haverly, W. J., Hess, Higgins, Hitchcock, Hunter, Lavin, Moss, Peasley, Peck, President, Rauscher, Schupp, Smith, F. J., Smith, J. F., Vanderpoel, Winne — 27.

Mr. Angus, of the Committee on Almshouse, presented the following report:

*To the Honorable the Board of Supervisors of the County of Albany:*

Your Committee on Almshouse, to which were referred the report of the special committee appointed by the last Board, the communication from Hon. E. B. Cantine, and the bill introduced by Supervisor Angus, all of which are found in the minutes of the session held November 27, 1900, respectfully reports that it has carefully inquired into the matters referred to in said report and communication; that it has given a public hearing on said bill, at which no person appeared in opposition thereto; that your committee deems it inadvisable for the county at this time to attempt to purchase a new site and erect thereon an entirely new plant for Almshouse purposes, thereby incurring an expense many times the amount required for the proposed improvement of the present plant.

Your committee therefore recommends the passage of the bill hereinbefore mentioned.

CHAS. M. ANGUS,  
A. H. HARCOURT,  
EDWARD A. PECK,  
Committee.

## STATE OF NEW YORK.

STATE COMMISSION OF PRISONS, OFFICE AT THE CAPITOL,  
ALBANY, *December 5, 1900.*

LUTHER C. WARNER, Esq., *Clerk Board of Supervisors, Albany, N. Y.:*

Dear Sir.—By direction of the State Commission of Prisons I inclose a copy of the report of an inspection of the Albany County Jail.

Kindly bring this report to the attention of your Board of Supervisors.

Yours truly,

GEO. McLAUGHLIN,

Secretary.

Inclosure.

Following is a copy of the report referred to:

### ALBANY COUNTY JAIL.

The Albany County Jail has been described in former reports, and we cannot report any material change for the better therein, except two new bathtubs and some new closets.

It is admirably situated in the City of Albany, in the rear of the beautiful Court House, with which it is conveniently connected by a bridge from the second story. It occupies a commanding position, and has ample space for a new Jail, which the county sorely needs. The present building is an old, worn-out and dilapidated structure, and on the third day of November, 1900, contained thirty-seven persons, including two women, a less number than usual. Persons committed for examination or for trial, and for minor offenses, or for only a few days, are placed here, but when sentenced for more than a few days they are sent to the Penitentiary of Albany County, which if it were as convenient to the Court House as the Jail is, the Jail would be little more than a "halfway house" between the Station House and the Penitentiary.

The Jail and its tenants are as well cared for, and the building as tidily and cleanly kept by the Sheriff as circumstances will permit, but it is so illy contrived and arranged that there can be no proper classification and separation of prisoners until a new, commodious and modern Jail shall be constructed, and which the county really cannot afford to longer delay. As it is, practically all the male prisoners, young and old, are herded together in a common corridor.

The Jail is chiefly heated by the use of stoves in the corridors, and although such stoves stand on stone floors, this system of heating is far from safe, and it should be also noted that the building is in no respects fireproof, and that other buildings of like character have kept pretty near it, and the danger from fire should not be overlooked, because, in case one should occur, it

might result in a fearful holocaust of imprisoned and helpless persons.

The attention of the Supervisors should be again called to the condition of this structure, and it is to be hoped that this county, which is a large and populous one, will take immediate steps to replace this Jail with a suitable one.

(Signed) NELSON DAVENPORT,  
Commissioner.

### STATE OF NEW YORK.

OFFICE OF THE STATE ENGINEER AND SURVEYOR,  
ALBANY, *December 5, 1900.*

MR. LUTHER C. WARNER, *Clerk of Board of Supervisors of Albany County, Albany, N. Y.:*

Dear Sir.—With this I hand you plans and specifications covering the improvement of 2.74 miles of public highway in the Town of Bethlehem, Albany County, N. Y., being a portion of the road covered by Petition No. 84, passed by your Board of Supervisors December 27, 1898.

If the plans and specifications herewith submitted are satisfactory to and approved by your Board, a resolution should be adopted covering such approval and providing for an appropriation by your county of \$11,248.60, being one-half of the estimated cost of the work, which is \$22,497.20.

I inclose herewith a form of resolution in duplicate, and if the Board approve of these plans, I would suggest that the inclosed resolution be adopted and a certified copy sent to this office.

The plans herewith submitted are the original plans for the work, and if approved by your Board, as provided in section 6 of chapter 115 of the Laws of 1898, you should indorse on each sheet in the place prepared therefor, the date of the approving resolution, with your signature under seal.

The plans, specifications and certified copy of the resolution adopted should then be returned to this office promptly and blue prints of the plans will be furnished your Board to complete your files.

In case your Board of Supervisors approve of this work, the road will take its number in the order in which it is adopted as compared with other roads throughout the State, and as soon as funds are available for the work on the part of the State, it will be duly advertised and contract awarded.

Will you kindly acknowledge receipt of this letter and the plans?

Very truly yours,

EDWARD A. BOND,

State Engineer and Surveyor.

Following are the specifications referred to:

## PUBLIC HIGHWAY IMPROVEMENT.

### STATE OF NEW YORK.

Chapter 115, Laws of 1898.

### SPECIFICATIONS

For the improvement of the Delaware Turnpike, Section 2, between a point (Sta. 47--|-20) about 300 feet southwest of the house of M. H. Bender to a point (Sta. 192--|-00) about 600 feet southwest of the cross-road to Slingerlands, a distance of 2.74 miles, in the Town of Bethlehem, Albany County, N. Y.

### WORK TO BE DONE.

The work to be done under these specifications will consist of grading the road to the established grade lines, constructing the necessary drains, ditches and culverts, and laying a six-inch Macadam surface fifteen feet wide and all other work necessary for the proper fulfillment of the contract, according to the meaning and intent of the plans and specifications, which plans are a part hereof. The lump sum named in the contract will cover the cost of all the work and materials necessary for completion.

The contractor will be required to do all the clearing and grubbing, all excavations and embankments, all levelling, ditching, grading and surfacing, all masonry and stonework, and to furnish all materials for the same. He will be required to build all waterways, drains and culverts, to clear away all rubbish which may obstruct the roadway or the waterways. He will be required to protect all

fences and to repair or replace the same if they become damaged or destroyed by him or by his employees. In short, he will be required to furnish all the materials, implements and labor required to build and put in complete order for use, the said 2.74 miles of road. He will be required to remove from the road and from adjoining property all rubbish and surplus materials pertaining to the work, which may have accumulated during its prosecution.

The whole work must be conducted and completed to the satisfaction of the State Engineer and Surveyor.

#### GRUBBING AND CLEARING.

Where directed by the Engineer all trees, brush and undergrowth shall be removed for the entire area included within the right of way. All fencing material shall be carefully removed and deposited where the Engineer may direct. All stumps and roots shall be grubbed out. All wood and brush thus removed, except fencing material shall be burned or removed from the ground so as to do no damage to the adjoining property.

#### EXCAVATION.

All trees, stumps, brush, sod and roots within the roadbed and on the slopes shall be grubbed up and removed as the Engineer may direct.

The roadway shall be graded throughout its entire length to the width of twenty-two feet between ditches, and shall conform to the lines and grades, as shown on the plans, and as given by the Engineer.

The side ditches and slopes shall be neatly and truly cut with side slopes of section shown upon plans.

The bottom of ditches shall be cut true to the grades furnished by the Engineer in charge.

All rock, boulders or stumps shall be excavated to a depth of at least six inches below sub-grade. Wherever such rock or boulders have been excavated, a sufficient amount of clear, fresh earth, sand or gravel, approved by the Engineer, shall be furnished and placed so as to make the surface conform to the required sub-grade.

Where clay or rock bottom is encountered it shall be excavated to a uniform depth of three inches below sub-grade for the entire width between ditches, and the contractor shall supply and place

a sufficient amount of clear loam, sand or gravel, approved by the Engineer, to make the surface of the macadamized portion conform to the required sub-grade and the shoulders beyond the macadamized portion conform to the lines and grades shown on the plans.

If quicksand, fine dust, spongy material or vegetable matter is encountered, it shall be removed to such depth as may be required by the Engineer and replaced by sufficient gravel, sand or loam, approved by the Engineer, to make a firm and stable foundation conforming to the required grade.

Where there is sod, or a hard smooth surface upon the original surface of the ground, it shall be thoroughly broken up and all sod and vegetable matter removed before any embankment is formed thereon, so as to form a proper bond with the new material.

Embankments shall be formed of clear earth or other materials, satisfactory to the Engineer, and shall be free from vegetable matter or refuse of any kind.

All embankments shall have side slopes as shown upon the plans, but in no case shall slopes be steeper than the "angle of repose" of the material. They shall be constructed in successive layers not exceeding six inches in thickness, and each layer shall be thoroughly rolled with a sectional iron roller weighing not less than two tons. The several sections of such roller to be about three inches wide on their faces and to vary alternately in diameter about three inches. The rolling shall be continued during the making of the embankment and until the Engineer directs it to be stopped. All embankments must be sprinkled as the Engineer directs, while rolling thereof is being done.

Surplus excavation shall be used to widen embankments or in such other places as the Engineer may direct.

All surfaces and slopes shall be left with neat even surfaces, and in conformity with lines and directions given by the Engineer. To insure the thorough draining of the road, all ditches must be dug and finished before any rolling will be allowed.

#### ROLLING SUB-GRADE.

The improvement shall be started at that end of the road furthest from the source of supply of the broken stone.

After the surface of the sub-grade has been properly shaped and before any broken stone is applied, the sub-grade shall be

thoroughly rolled and compacted. This rolling shall be done with a Macadam steam-roller nominally weighing about ten (10) tons and so built that it shall exert a pressure of about 500 pounds to the linear inch, measured across face of rollers. All hollows and depressions developing during the rolling shall be filled with material acceptable to the Engineer, and the rolling shall be continued until no depressions can be formed with the roller.

When the sub-grade consists of sand which will not consolidate when wet under action of roller, the road bed shall be formed to the desired shape and then covered with one layer of broken stone, sufficient in quantity for fragments to touch each other. This shall then be wet and rolled until consolidated.

When the sub-grade consists of sticky clay too great in extent to be removed, this shall be formed to the desired shape and then covered with about four inches of sand. This shall then be rolled until consolidated.

No broken stone other than that above mentioned shall be placed on this sub-grade until the latter has been accepted by the Engineer.

#### UNDERDRAINS — VITRIFIED PIPE AND POROUS TILE.

Lateral underdrains shall be provided on one or both sides of the road, where shown on the plans, to drain flat and wet portions of the road.

For lengths of 500 feet and over these shall be of five-inch vitrified tile, first quality, salt glazed, free from blisters and cracks, straight and round.

No chipping shall be allowed to insert spigot end into bell.

The trench for the drain, two to four feet deep, shall be dug to the line and grade furnished by the Engineer. The bottom shall be covered with two or more inches of gravel or gravelly earth and the pipe shall be laid as fast as the trench is ready.

The minimum slope for lateral drains shall be two-tenths of a foot per hundred feet, except in special cases where one-tenth foot per hundred feet may be used with extreme care in laying.

Each length of pipe shall be laid with the bell up-stream.

The lower one-third of each joint shall be filled with mortar formed of equal parts of American Portland cement and sand; the upper two-thirds of the bell shall be filled with a roll of oakum, pushed in after pipe is laid.

The pipe shall be covered as laid, with six inches or more of gravel or porous earth, placed, packed and tamped around, under and over it, and the trench shall then be filled with the best available material, not clay. During the laying of the pipe, and until the completion of the drain, there shall be kept inside of the drain a close fitting bunch of burlap fastened securely around the end of a four-foot handle; this shall be drawn forward as each joint is added in order to remove any mortar which may project inward at the joints, and to prevent any stones or other obstructions from being left within the drain.

Porous tile may be used, when so shown on the plans, for the shorter side-drains or for transverse drains; where so used, the tile must be cylindrical, of first quality, well burnt, cherry color, straight, sound and free from cracks. The trench must be fitted to receive the tile by cutting its bottom accurately to grade, with a special scoop made to fit the shape of the tile. The ends of the tile shall be laid in close contact, and each joint shall be covered with a piece of burlap twelve inches square, folded twice.

The trench shall be filled as provided above for laying vitrified pipe.

#### SAMPLES OF BROKEN STONE.

The contractor shall be required to submit with his bid samples of the stone which he proposes to use in the construction, and all stone which the Engineer shall consider to be inferior in quality to the submitted sample will be rejected.

#### QUALITY OF BROKEN STONE.

The broken stone and screenings must be of hard and compact texture and of uniform grain. They must be broken as nearly cubical as possible, and be screened through a rotary screen having three sections, each at least six feet long and each containing circular holes of one size which will produce stone of the sizes herein specified. They must have on all sides a rough surface obtained by fracture. Water-worn pebbles or crushed cobble-stone will not be accepted. Disintegrated and weather-worn stone from the surface of a quarry will not be accepted. The stone for the different courses must be thoroughly cleaned before crushing and well screened, clean and free from injurious matter of every nature.

## KIND AND SIZES OF BROKEN STONE.

The broken stone shall be of two courses. The bottom course will be three inches thick and may consist of trap rock, granite, or any of the harder grades of limestone, broken in sizes varying from a minimum of one and one-half inches to a maximum of three inches in their longest dimensions.

The top course shall be three inches thick after rolling and shall consist of trap rock or the harder grades of limestone broken in sizes varying from a minimum of one inch to a maximum of two inches in their longest dimensions.

Limestone screenings not exceeding one-half inch in size and free from all dirt shall be added to fill all interstices that cannot be filled by the rolling or compacting of the other stone. Such screenings must be free from earth, sand, loam, or vegetable matter and shall contain all the dust of fracture.

## SPREADING AND ROLLING.

After the earth sub-grade has been completed as specified and has passed the inspection of the Engineer, a layer of broken stone of the size and quality hereinbefore specified for the bottom course and of such depth as will when rolled, make a course four inches thick, shall be spread evenly over the prepared sub-grade using preferably, spreader-wagons therefor. The roller shall then be rolled first along the edge of the stone lapping upon the shoulder about six inches and going backward and forward several times on each side before rolling the center. The lower course should be rolled about forty times dry, or until the stones do not weave ahead of the roller. Screenings shall then be spread uniformly over the surface to a depth of one-half inch by means of a spreader-wagon, which can be set to distribute the screenings in any desired quantity over the surface of the roadway. In the absence of such a spreader-wagon, the screenings shall be dumped in piles at proper intervals along the side of the roadway upon the wings, with plank set on edge against the stakes to prevent the piles of screenings from sliding into the ditch. In no case shall the screenings be dumped directly in mass upon the crushed stone, but they shall be spread uniformly by spreader-wagon or by shovels. The screenings shall then be rolled dry until they have nearly all disappeared, when another coat of screenings shall be spread and wet with sprinkler and rolled, adding more material if necessary until

all of the voids are filled, leaving the surface free from screenings in all places.

The top course of stone shall then be spread, preserving the grade and crown as described for the bottom course. Roll the top course ten times dry and then cover it with dry screenings about one inch deep and roll ten times dry, after which take a section not over 300 feet long and saturate with water, following with the roller; sufficient amount of water shall be put on to fill all of the voids or until it shows on the surface, then proceed with the rolling until a grout has been formed of the screenings, stone-dust and water. After this grout has filled all of the voids, it will appear on the surface in patches.

The rolling shall continue until this grout can be pushed in a wave before the wheels of the roller. It will be necessary to keep putting on water from time to time to preserve the condition described and to prevent the stones picking up on the wheels; one sprinkling being enough at one time after the road has been once saturated with water.

During the progress of the rolling and sprinkling, the screenings shall be swept about with brooms of rattan or steel to facilitate the thorough filling of the interstices and the screenings will in many places work down into the voids of the stone, leaving none on top. A second coat of screenings shall then be spread on these spots wherever needed, using an ordinary wagon for carrying the supply of screenings.

After the wave has been produced over the whole section of the road, screenings shall be again spread where required to leave them three-eighths of an inch deep for a wearing surface.

The road shall then be left for forty-eight hours, or longer, if required until the surface has dried so that the roller can pass without sticking, but the road will yet be moist enough to pack well. It shall be again rolled for about ten times dry and then sprinkled twice, following with the roller as long as possible without picking up the surface. This portion of the road shall then be left to dry for a time varying from two days to a week, when it may be opened to travel.

As soon as a section of 100 feet in length shall have been completed in compliance with these specifications and has dried as described, it shall be thoroughly sprinkled at least once a day for thirty days. At any time during this period, if it is the opinion of the Engineer that a better result can be obtained by going back

on the finished work with the roller, this shall be done: Ordinarily this should be done every four days, rolling the section about five times. Rainy days shall be devoted to rolling the finished work.

#### METHOD OF CARRYING ON THE WORK.

The work shall all be carried along together, where practicable, the fine grading and rolling of sub-grade being done just ahead of the lower course of stone and not exceeding 500 linear feet in advance and as soon as 1,000 linear feet of the lower course of stone has been put on it shall be followed up with the top or finishing course, and at no time shall the lower course be over 1,000 linear feet in advance of the top of finishing course.

The screenings used in both courses of stone shall be delivered in advance of the stone and piled along on the shoulders in regular piles containing the required amount necessary to complete the work and shall in no case be dumped upon the road.

Where it is practicable, a driveway shall be maintained on one side of the improved portion of the road that it may not be necessary to haul material for the top course the full length of the lower course that has been rolled.

#### DEPTH AND WIDTH OF PAVEMENT.

The pavement when completed shall be fifteen feet in width and shall be at least six inches in depth, as is required by the specifications, and of such crown and form of gutter as are shown on plans; and in any case the thickness on the pavement is to be determined on a line at right angles to the grade and crown.

No allowance will be made for any material driven into the sub-grade by rolling, or mistake, made by contractor, in excavating or filling. The use of a proper roller, rammers or other suitable implements, is to be substituted for that of the steam roller when the Engineer so directs.

#### EXTRA MATERIAL FOR MAINTENANCE.

Where called for in the estimate of quantities, in addition to the crushed limestone and screenings of limestone used in the work above described, there shall be also provided sufficient quantities of each to form at intervals of 200 feet, piles of crushed limestone and of limestone screenings; each pile to be about three feet

by six feet and to be neatly formed at one side of road and to contain about one cubic yard of crushed limestone and one-fifth cubic yard of screenings.

### MASONRY.

All masonry shall be laid in Portland cement mortar as specified below. All stone shall be sound, durable, well shaped quarry stone, satisfactory to the Engineer. All masonry shall be third-class, unless some other class is called for on the plans, or in the Engineer's estimate of quantities.

### SECOND-CLASS MASONRY.

*Courses.* Regular and horizontal, or irregular and broken as may best suit the stones used.

*Thickness.* Least size, six inches; greatest size, thirty inches.

*Stretchers.* *Length.* Least size, two feet; greatest size, six feet. *Width.* Least size, equal to the rise, but not less than twelve inches.

*Headers* shall form at least one-fourth of front and rear of wall. *Length.* Least size, two and one-half feet, or two and one-half times the rise; greatest size, six feet or full width of wall. Special directions will be given by the Engineer as to the delivery of cement and as to the time and facilities required for testing the cement and sand previous to use in the work. No cement or sand will be used except in compliance with these directions. All facilities required by the Engineer for securing tests must be afforded by the contractor.

All cement offered for use in any work shall be sampled by an agent of the State Engineer's department. Such samples will be collected by the Engineer immediately on delivery of cement at site of work, and contractors will promptly notify the engineer of the receipt of cement in order that no delay may be had in the sampling thereof. Samples from every tenth barrel or bag will be forwarded to the cement testing office in Albany, and will be subjected to the following tests; and any cement failing on either of them may be rejected, though the further right is reserved to reject any and all cements, the qualities of which have not become well known through prior use in State work or elsewhere:

Posts will be set three feet into the ground and the earth firmly tamped around them in a manner satisfactory to the Engineer. They will be placed eight feet apart centre to centre.

Guard rails will be of pine, spruce or other wood, acceptable to the Engineer, and of the form and secured to the posts, as shown on the plans in a workmanlike manner, satisfactory to the Engineer.

#### RAILING.

The railings for all bridges, where shown on plans, shall consist of one and one-half inch steel or wrought iron pipe, railing, posts, and fittings, with cast-iron foot-pieces securely fastened to planking with lag bolts. All parts must be thoroughly painted after putting in place with two (2) coats of approved paint of some well-known brand, delivered upon the work in unbroken cans. It is, however, distinctly understood that the contractor must satisfy himself regarding the conditions governing all the work to be done, as to the nature and extent of all the materials required to make the work conform, in all respects, to the plans and specifications, it being further distinctly understood that the State or party or parties of the second part do not guarantee the correctness of the quantities above stated, although care has been taken in preparing same, and that whether these quantities are increased or diminished no sum will be paid, therefore, in excess of the lump sum named in the contract, unless the plans or specifications shall have been changed as provided for in the "General Clauses" of this specification.

## CLAUSES OF GENERAL APPLICATION.

1. The plans and specifications are a part of the contract and will be held to cover any and all work that could be reasonably inferred as needed, taking the two together for a complete and workmanlike job. Work shown on the plans and not mentioned in the specifications or *vice versa* will be done the same as if shown by both, when and where required.

2. All work will be neatly cleaned up on completion, according to the Engineer's directions, and be left in a neat and orderly condition ready for use.

3. The contractor hereby assumes all risks and liabilities for accidents or damages that may accrue to persons or property during the prosecution of the work, by reason by the negligence or carelessness of himself, his agents or employees.

4. The successful bidder shall satisfy the State Engineer, before the contract is awarded to him, that he has, or will promptly provide suitable and proper men, and all tools and machinery for each of the different kinds of work.

5. Should any work be required, that in the judgment of the State Engineer is not included under these specifications, or not covered by the prices named in the contract, such work shall be done pursuant to the State Engineer's written direction, after the price therefor shall have been agreed upon.

6. The right is reserved to make such changes in the plans or specifications as may, from time to time, appear necessary or desirable, and such changes shall in no wise invalidate this contract. Should such changes be productive of increased cost to the contractor, a fair and equitable sum, therefore, to be agreed upon before such changed work shall have been begun, shall be added to the contract price, and in like manner deductions shall be made.

7. The contractor shall, without extra compensation, grade a safe, proper and workmanlike connection with all intersecting public or private roads or driveways, according to the Engineer's directions.

8. The work shall progress in such manner and at such time as the Engineer may direct.

9. All material which may be rejected shall at once be removed from the vicinity and replaced by material of approved quality.

10. The contractor shall give his constant personal attention to the work while it is in progress, or he shall place it in charge of a competent and steady foreman who shall have authority to act

for the contractor, and who shall be acceptable to the Engineer. The contractor shall at all times employ sufficient number of workmen for the proper performance of the several works, which he shall prosecute to full completion in the manner and time specified. Any workman whom the Engineer may deem incompetent or unfit for duty shall be at once discharged.

11. Should the contractor at any time fail or refuse to comply with these specifications, the State Engineer, three days after giving written notice to the contractor, may purchase necessary materials and employ proper workmen and perform the work; the cost of such materials and labor being deducted from the contract price, as the State Engineer may decide.

12. Wherever the word "Engineer" is used in these specifications, it is understood to mean the State Engineer and Surveyor or his representatives in charge of the work.

#### COMMENCEMENT OF WORK.

Work must be started within ten days after the signing of the contract.

#### COMPLETION OF WORK.

All road improvement to be completed by October 15, 1901. If from any cause the entire contract cannot be completed by October 15, the work shall be arranged so that it may be closed down by that date, bringing the top course up within twenty-five feet of the end of the lower course and then left to be completed the following season.

#### SPECIAL.

The contractor will conform to all the provisions of chapters 514, 516 and 444 of the Laws of 1897, and chapter 567, Laws of 1899, to which special attention of bidders is called regarding rates of wages, hours of labor and times of payment of employes, and the sub-letting of contracts.

#### INSTRUCTIONS TO BIDDERS.

1. Bids will be made upon the blank form which follows these specifications; which specifications, with the original bid, will be attached to and form a part of the contract.

2. Each bid shall be accompanied by a New York draft or a certified check, payable at sight to the order of the State Engineer

and Surveyor for 5 per cent. of the amount of the proposal; which check shall be held until the execution of the contract.

The successful bidder who fails to enter into contract will forfeit his check.

When the contract has been made, the various checks will be returned to the bidders who deposited them.

3. The successful bidder must furnish a bond for the faithful performance of the work as provided for by law; such bond to be for the full amount of the contract, and with sureties and in form satisfactory to and approved by the State Engineer.

4. Each signature to proposals, guarantees, contracts and bonds shall be written out in full, and each signature to guarantees, contracts and bonds shall be attested by a witness and shall have affixed an adhesive seal.

5. The place of residence of every bidder, and post-office address, with county and State, must be given after the signature.

6. One copy of the advertisement as published must be securely attached to, and will be considered as forming a part of, each proposal.

7. All blank spaces in the proposal and bond must be filled; and the addition in writing of any condition, limitation or provision will be liable to render the proposal informal and to cause its rejection.

8. No bids will be received after the time set for opening them.

9. The State Engineer and Surveyor reserves the right to reject any or all bids, and to disregard the proposal of any failing contractor.

10. Bidders are invited to be present at the office of the State Engineer and Surveyor in Albany when the bids are opened.

Mr. Bedell, of the Committee on County Improvements, presented the following report:

*To the Honorable the Board of Supervisors of the County of Albany:*

Your Committee on County Improvements, to which was referred the communication from Hon. Edward A. Bond, State Engineer and Surveyor, as found in the minutes of the session held November 27, 1900, relative to improvement of the Loudon Road, respectfully recommends the adoption of the following:

Whereas, On the 9th day of May, 1899, a resolution was adopted by this Board petitioning for the improvement, by means of State aid, of the Loudon road, extending from the city line of Albany to the M. E. Church at Newtonville, a distance of 3.41 miles.

And on the 8th day of May, 1900, plans, specifications and estimate of cost for said improvement, prepared by the State Engineer and Surveyor, were presented to and adopted by this Board, and \$15,950, being one-half of the estimated cost therefor, was appropriated as the county's share of the expense thereof, and a contract has been awarded for the work, which work is still in course of construction; and,

Whereas, It has been found necessary, owing to the peculiar condition of the material encountered in excavating for the subgrade of this road, to haul in selected material from long distances, with which to form shoulders and subgrade, and it has also been found necessary to provide numerous large culverts, all of which are in excess of the estimated cost of the work, and which it was impossible to anticipate before the actual excavation for the work had begun; and,

Whereas, Plans of said extra work were heretofore and on the 27th day of November, 1900, filed by said State Engineer and Surveyor with the Clerk of this Board; and,

Whereas, The cost of said road will be increased by the work above described; now, therefore, be it

The following claim for distribution of election supplies, etc., was received, and on motion of Mr. Bloom ordered printed and referred to the Committee on Election Accounts:

	Claimed.
City of Albany .....	\$278 50

The following petition was received, and, on motion of Mr. Coggin, ordered printed and referred to the Committee on Erroneous Assessments.

*To the Honorable, the Board of Supervisors of Albany County:*

The petition of Matthew E. Egan respectfully shows as follows:

That your petitioner is the owner of the north half of Lot No. 11, and the whole of Lot No. 12 on the west side of George Street, in the City of Watervliet, formerly Village of West Troy, N. Y.

That in the year 1888, said premises were owned by and assessed to one Patrick Finn, and there was a small two-story frame dwelling-house, two rooms deep, erected upon Lot No. 12, said half lot being vacant.

That for a number of years prior to 1888 and subsequent thereto, and until 1896, said lot was assessed by the assessors of the Town of Watervliet, at the sum of \$700.

That in said year 1888, the assessors of said town, by a clerical error in transcribing their books, made such assessment of said lot \$7,000 instead of \$700.

That \$700 was the fair value of said premises in that year and that by reason of said erroneous assessment the taxes levied upon said premises for the year 1888 were raised proportionately to said assessment and were fixed for that year at the sum of \$63.70.

That deponent has recently purchased said premises and desires to pay the taxes now due and unpaid thereon, and that the said tax of \$63.70 for the year 1888 appears unpaid upon the tax books of the County Treasurer of the County of Albany.

Wherefore your petitioner prays that said assessment of \$7,000, for the year 1888, may be corrected so as to be made the sum of seven hundred dollars (\$700) and that the tax upon said premises for that year may be reduced proportionately, and that the County Treasurer of Albany County may be directed to cancel said tax upon the payment to him of the amount that said tax would be if said assessment were but \$700, together with all interest and legal charges on said tax to date.

Dated December 11, 1900.

MATTHEW E. EGAN,  
Petitioner.

STATE OF NEW YORK, }  
County of Albany, } ss.:

Matthew E. Egan being duly sworn says that he is the petitioner named in and who subscribed the foregoing petition. That he has read said petition and knows the contents thereof and that the same is true to the knowledge of deponent except as to the matters therein stated to be alleged upon information and belief and that as to those matters he believes it to be true.

MATTHEW E. EGAN.

Sworn to before me, this 11th  
day of December, 1900.

### COMMUNICATION.

The following communication was received, and, on motion of Mr. Lindsay, ordered printed and referred to the Committee on Military:

ALBANY, *December 11, 1900.*

*To the Albany County Board of Supervisors:*

Gentlemen.— I have the honor to invite your attention to the attached letter from the commanding officer of Company B, 10th Battalion, and to request that the amount asked for be appropriated in accordance with section 133, chapter 16, of the Laws of 1898. I can vouch for the truth of the statement of Captain Strevell that the amount he asks for is necessary for the proper administration of his Company. If a committee from your Board will examine the records of the County Treasurer and will visit the Armory and quarters of Company B I am quite sure they will be fully convinced of the necessity of the appropriation asked for.

Respectfully,

JAMES L. HYATT,  
Major.

ALBANY, *December 3, 1900.*

MAJOR JAMES L. HYATT, *10th Battalion, N. G. N. Y.:*

Sir.— I have the honor to request that you make application to the Board of Supervisors of Albany County, N. Y., for an appropriation of eleven hundred dollars (\$1,100), the said sum or so much thereof as may be necessary, to be used to cover the expense of purchasing furniture, making repairs in the company quarters and locker rooms of Company B, 10th Battalion, necessary to the proper administration of the Company and for the convenience of the members of the organization.

This Company has never received, to my knowledge, any furniture from the County of Albany; it has in the past furnished its own quarters.

With the exception of a few articles, such as a mantel, piano, pool table (purchased with Company funds) the Company quarters are destitute of furniture, also, the locker rooms are in need of repairs.

Respectfully,

CLARENCE STREVELL,

Captain.

By Mr. Higgins:

Resolved, That it is the prevailing sentiment that this Board of Supervisors should determine to acquire the rights and franchises of all individuals and corporations lawfully entitled to exact toll or charge for walking, riding or driving over any plankroad or turnpike within the county of Albany, and

Whereas, The said prevailing sentiment has been made manifest by an investigation conducted by a committee of this body, which made its report at a meeting of this body held on the 26th of December, 1899, and whereby it appears that substantially the only obstacle to the accomplishment of the desire manifested by the prevailing sentiment of the people of the county is the fact that the owners of the properties thus to be acquired have placed valuations thereon which are apparently excessive in amount, and

Whereas, In view of the excessive valuations placed upon their property by the said owners, it is deemed advisable that this Board if it should determine to acquire the said properties, should acquire them as authorized by law, through condemnation proceedings, and

Whereas, It is deemed advisable by this Board of Supervisors, in view of the circumstances hereinbefore recited, that an expression of the wishes of the voters and taxpayers upon whom will fall the expense of the acquisition of said rights, franchises and properties, should be had for the advice of this Board as to the wishes of the citizens, and taxpayers upon whom, under the law, would have to be apportioned the cost and expense of such acquisition. Now, therefore, be it

Resolved, That the question: "Shall the Board of Supervisors acquire the rights, franchises and property of the individuals and corporations exacting toll for the use of turnpikes and plankroads," be submitted to the electors at the general election to be held on the Tuesday following the first Monday in November of the year 1901; and be it further

Resolved, That a separate ballot for the question so to be submitted to the electors be prepared by the same officers who are

charged by law with the duty of providing the official ballots for candidates for public office for the said election, and that such ballots comply with the requirements for official ballots of candidates for public office, as such requirements are applicable thereto; and under the perforated line shall be clearly printed in brier lower case type the said question; and that opposite the said question so submitted, shall be printed two squares inclosed in ruled lines, one above the other, preceding the upper one of which shall be printed the word "Yes," and preceding the lower one of which shall be printed the word "No," and which said ballot shall be in the form and contain the matters therein by law required to be stated, as provided in the Election Law of the State of New York, and shall fully conform to and comply with the requirements of said law in all respects. And be it further

Resolved, That the result of the balloting on said question be certified as required by law with reference to questions submitted to the vote of the electors of the State of a subdivision thereof, and that the Clerk of this Board procure a certified statement of such result for the further consideration and action of this Board at its first meeting subsequent to such election.

Laid over under Rule 23, upon objection by Mr. Lindsay.

### RESOLUTIONS.

By Mr. A. S. Coon:

Whereas, Boards of Supervisors in the Counties of this State with which contracts exist for board of prisoners in the Albany County Penitentiary, are accustomed to make payments on account of said contracts, by drafts on the County Treasurers of their respective counties; now, therefore, be it

Resolved, That the County Treasurer of this county be and he is hereby authorized, in his discretion, to procure the discount of said drafts, in case the proceeds thereof may be necessary to pay current expenses of said Penitentiary.

Adopted by the following vote:

Ayes — Messrs. Angus, Bedell, Bender, Bloom, Carhart, Coggins, Coon, A. S., Coon, C., Corrigan, Courchaine, Delehanty, Fleming, Garland, Gove, Harcourt, Haverly, C., Haverly, W. J., Hess, Hitchcock, Hunter, Lavin, Lindsay, Moss, Peasley, Peck, Platz, President, Rauscher, Roche, Smith, F. J., Smith, J. F., Vanderpoel, Winne — 33.

By Mr. Vanderpoel:

Whereas, The State of New York, in order to encourage the construction of the building of main highways, has placed upon her statute books the so-called Higbie-Armstrong Act, for improving the main highways, under which act the cost of the im-

provement is paid fifty per cent. by the State, thirty-five per cent. by the county, and fifteen per cent. by the locality benefited, and

Whereas, Under said act, the State did appropriate, in the year 1898, \$50,000; in 1899, \$50,000; in 1900, \$100,000, and

Whereas, The money appropriated to the 12th of January, 1900, was sufficient to build but fifty-three miles of road, and

Whereas, The assessed valuation of the State of New York is, in round numbers, \$50,000,000,000, and

Whereas, A tax of ten cents on each \$1,000 would raise the sum of \$500,000, and

Whereas, With an appropriation of \$500,000 from the State, there would be raised in the counties building the highways \$500,000 more, which would give the State of New York \$1,000,000 for building roads, and, on the basis of their costing \$8,000 a mile, there could be built, in round numbers, 125 miles of road, which would substantially give two miles of road in each county, supposing that each one of the sixty-one counties had petitioned for this road improvement; and

Whereas, The cost to the County of Albany for each mile of road built in said county, at said estimate of \$8,000 per mile, would be but \$0.028 on each \$1,000 of assessed valuation; and,

Whereas, The improvement of our main highways is of the utmost importance to the commercial interests of the State, as well as to the farming interests; therefore, be it

Resolved, That we, the Board of Supervisors of the County of Albany, do hereby recommend to the Legislature an appropriation of \$500,000 to be expended under the Higbie-Armstrong Act, to develop the commercial prosperity of our State through the improvement of her highways.

Adopted.

By Mr. Hitchcock:

Resolved, That the Board of Supervisors of the County of Albany does hereby recommend that the salary of the Assistant Superintendent of the City Hall be advanced to ten hundred dollars (\$1,000) per annum.

Adopted by the following vote:

Ayes — Messrs. Angus, Coggins, Coon, C., Corrigan, Delehanty, Fleming, Harcourt, Hess, Hitchcock, Lavin, Lindsay, Moss, Peck, Platz, Rauscher, Roche, Smith, F. J., Smith, J. F., Winne — 19.

Nays — Messrs. Coon, A. S., Courchaine, Gove, Haverly, C., Haverly, W. J., Hunter, Peasley, President, Vanderpoel — 9.

Mr. Carhart moved that the Ravena News be designated as one of the papers to publish the county audits of the year 1900.

Adopted.

On motions by Messrs. Hess, Lindsay and Bedell, respectively, the thanks of the Board were extended to Superintendent Pugh, Doorkeeper Polk and Committee Clerk Barends.

Mr. Coggins then addressed the Board as follows:

Mr. President and Gentlemen of the Board: My colleagues have extended courtesy and good will, and fearing you might think me a little cold on the occasion, I arise to address you.

To our President, honest Peter Walker, of Guilderland, I first pay tribute. Expeditious and courteous, as presiding officer, you have gained the esteem and affection of every member of this Board.

To our able and efficient Clerk, Luther C. Warner, permit me to present a bouquet. A true record you have kept, and in the dis-

charge of the same you have won our admiration by your gentlemanly deportment.

Thomas C. Smith, of Cohoes, the encyclopedia of the Board, our Journal Clerk, who knows that book from A to Z, I give praise.

To the members from the towns, Watchmen of the County, faithful to locality, I now address myself. I assume the right, not only on account of five years' friendship, but I am akin to you (b'gosh), for I am country-born. Up in a northern county where old Mount Marcy lifts its head above the clouds, kissing the sky, and its great slopes descending, reflected the glorious sunshine through the windows of an old farm-house, the youthful and humble member who now stands before you first saw the light of day. Therefore, my countrymen, I have a warm spot in my heart for you.

And to the city chaps, who occupy the front row, who, one evening not long ago, invited the minority here, sidetracked against the wall, to a seat in the band wagon, and the next night cast us in the ditch without a penny, I forgive them, for they know not what they do. I will compliment you now. Form an alumni, and hear yourselves orate, for, in the session of 1900, many parliamentarians were born among you.

And, to my comrades, Jeffersonians, Democrats of the old school, sons of Spartan mothers, who never turn back and run, although you are outnumbered by 16 to 1.

Colleagues all, Democrat and Republican —

When this session is done

We will all join in

And have a little fun.

## REPORT OF EDWARD B. CANTINE, SUPER- INTENDENT OF ALMSHOUSE.

---

ALMSHOUSE, November 1, 1900.

*To the Honorable, the Board of Supervisors:*

Gentlemen.—In compliance with the requirements of section 8, chapter 354, Laws of 1884, I herewith submit my report for the year ending October 31, 1900:

The amount due orphan asylums for the year ending October 1, 1899, was \$47,688.90.

The amount expended during the year ending October 31, 1899, for transferring and transporting idiots, epileptics, blind and deaf and dumb pupils and alien paupers, was \$133.52.

The amount expended during the year ending October 31, 1900, for transferring and transporting idiots, epileptics, blind and deaf and dumb pupils and alien paupers, was \$91.36, a net decrease of \$42.16.

The certified disbursements of Overseers of Poor, in delivering paupers and children to orphan asylums and Almshouse, for year ending October 31, 1899, was \$107.72.

The certified disbursements of Overseers of Poor, in delivering paupers and children to orphan asylums and Almshouse, for year ending October 31, 1900, was \$57.32, a net decrease of \$50.40.

The amount collected from parents, with children in our orphanages, who upon examination were found able to pay something, for the year ending October 31, 1900, was \$46.71, the same being paid to County Treasurer. In this connection I suggest to your honorable body that one inspector be appointed whose duty it would be to keep in communication with the parents of

children in the several orphanages, with a view of having those parents contribute something toward their support; the salary of such inspector, and much more could be recovered. The following statement and balance will be of interest: Whole number in our orphanages October 1, 1899, was 500; admitted during year 156; total in during year 656; total number discharged during year 168; whole number in October 1, 1900, 488, a decrease of 12; whole number of applications received 177, of which number 156 were admitted, and, for various reasons, 21 were rejected.

In compliance with the requirements of the law, a tabulated statement will be found annexed to this report.

Respectfully submitted,

EDWARD B. CANTINE,  
Superintendent Almshouse.

## REPORT OF COMMISSIONERS OF ALBANY COUNTY PENITENTIARY.

---

*To the Honorable the Board of Supervisors of the County of Albany:*

The undersigned, constituting a majority of the Penitentiary Commission of the County of Albany, herewith submit the following report of the management of the Albany County Penitentiary, as required by law, for the period commencing October 31, 1899, and ending October 31, 1900.

Attached you will find a detailed statement of the receipts and disbursements, as also the reports of the chaplains and physician. Mr. Dearstyne, the retiring superintendent, leaves the institution in a high state of efficiency, and we feel sure that the newly-appointed superintendent, Mr. Corscadden, will continue the management of the prison with the same degree of zeal as has characterized the administration of his predecessor.

We also submit a statement of the estimated receipts and disbursements of the penitentiary, for the year ending October 31, 1901, which shows an estimated deficiency of about \$25,000. It is to be hoped that the Legislature, at its coming session, will be able to find some way to make the institution self-sustaining, without interfering with honest labor.

We suggest to your honorable body the necessity of authorizing the County Treasurer to advance the amount which will become necessary for the proper maintenance of the institution, namely, \$25,000.

Dated Albany, N. Y., December 10, 1900.

Respectfully submitted,

P. E. McCABE,  
ISAAC M. HASWELL.

Following are the communication and estimate referred to:

SUPERINTENDENT'S OFFICE, ALBANY COUNTY PENITENTIARY,  
ALBANY, N. Y., *December 4, 1900.*

*To the Commissioners of the Albany County Penitentiary:*

Gentlemen.—I beg leave to hand you herewith a statement, showing the estimated receipts and disbursements of the penitentiary for the year ending October 31, 1901.

From this statement it will be seen that unless some employment can be found for the prisoners from which a revenue will be derived, the deficiency for the year will be about \$25,000; and I would respectfully suggest that the Board of Supervisors be requested to authorize the County Treasurer to advance that amount for the penitentiary account.

Respectfully submitted,

JOHN E. CORSCADDEN,

*Superintendent.*

*To the Honorable, the Board of Supervisors of the County of Albany:*

Gentlemen.—As required by law, the undersigned, a member of the Albany Penitentiary Commission, submits the following minority report for the year ending October 31, 1900:

I regret exceedingly that I cannot agree with my associates upon the Commission in their report to your honorable body, but, inasmuch as, in my opinion, the further continuance of such institution will cause an unwarranted waste of public money, I was unable to assent to said report.

It appears that the amount received by the county for the board of prisoners, during said year, under the respective contracts between the representatives of the County of Albany and outside counties, for the board of prisoners, is considerably less than the actual cost of their maintenance in the institution, thereby saddling the County of Albany with the expense of the maintenance of prisoners convicted of minor offenses from the other counties of the State.

The detailed statement of the receipts and disbursements for said time, attached to the majority report of said Commission, show

that the earnings of said institution were \$44,209.38, and that the expense of maintaining said institution during said time was \$76,102.79, showing a net loss to the county, between the earnings and the expenses, of \$31,893.41, which deficiency the taxpayers of the County of Albany will be obliged to pay.

The best interests of the County of Albany demand that some action be taken by your honorable body by which the taxpayers of the county shall be relieved from supporting prisoners from other counties; and to save the said taxpayers the amount of the deficiency that they are obliged to pay, and which they will be obliged to pay as long as the penitentiary is maintained as a county institution.

It is, therefore, recommended to your honorable board that an effort be made by you to utilize said institution for the benefit of the county, and prevent the future loss of the monies of the taxpayers; and it is, therefore, respectfully suggested that the necessary legislation be had from the Legislature of the State to enable your board to use said institution as the County Jail, or that the buildings be so changed and remodeled so as to use them as an almshouse, thus relieving the County of Albany from the great expense which it will be in the future called upon to pay for the maintenance of said penitentiary as a county institution.

All of which is respectfully submitted.

Dated Albany, N. Y., December 10, 1900.

ZEB A. DYER.

## Superintendent's Report.

---

ALBANY COUNTY PENITENTIARY,  
ALBANY, N. Y., November 21, 1900.

*To the Commissioners of the Albany County Penitentiary:*

Gentlemen.—In accordance with custom, I beg to submit my annual report as Superintendent of the Penitentiary, for the fiscal year ending October 31, 1900:

The population of the prison has continued to decrease during the year; the daily average being only 396, as against 489 in the preceding year. The daily average cost of maintenance has been 53 cents per capita.

On account of the falling off in numbers, on April 25th I closed up the the portion of the prison known as the south hall; thus doing away with the services of a day hall officer and one night watchman. This hall, which contains 184 cells, and is one of the best prison halls in the State, is now closed and idle.

The reduction in the number of prisoners has occasioned a proportionate decrease in earnings. The board account for the past year amounted to but \$39,287.28; a decrease of \$7,638.26 as compared with the preceding year. The expiration of the brush-making contract on November 30, 1899, caused a still further reduction in the earnings of the prison.

At the end of the present month the laundry contract will expire, and thus the last of the productive industries will be removed; leaving the penitentiary absolutely without any source of revenue, except that received for the maintenance of prisoners from other counties, and the few United States prisoners still confined here. There are now but 53 Federal prisoners confined here, and this number will be materially lessened by reason of expiration of sentences during the coming year.

Since all other sources of revenue have been closed, and the penitentiary must hereafter necessarily be dependent entirely upon its board account, and deficiencies will have to be met by the Board of Supervisors of this county, I think it proper to call at-

tention to the fact that the established rate charged for the board of prisoners has been \$2.25 per week, and all the contracts with the other counties have been made on this basis.

As the actual cost of maintenance of prisoners is about \$3.75 per week, under present conditions, it would seem that a renewal of these contracts at existing rates would be unwise. A table showing the counties with which contracts are in force, the dates on which they were made, and the dates on which they will expire, is transmitted herewith.

For the board of tramps and State felons the State pays but 30 cents per day, only a little over one-half the actual cost of maintenance.

From the courts of Albany County there have been imprisoned here, during the year, 229 prisoners, of whom 48 remained in confinement on October 31st, the close of the fiscal year. The board of these prisoners, at the rate charged other counties, would have amounted to \$6,577.07 for the year.

It has been my custom to give the prisoners exercise, on each pleasant day, by marching them in squads about the prison yard. Until May 1st of the present year the men have always marched in what is known as the lock-step, but on that date this system was abolished, and the men have since been marching two abreast with a space of about three feet between the pairs. The result has been that there has been greater freedom of action, and I believe that the men have derived much more benefit from their exercise than was possible under the old method. The lock-step has since been abandoned in the State prisons.

With the expiration of the laundry contract the hundred and twenty-five men who have been employed in that department will be thrown out of work. How these men shall be employed is a question which presses for earnest and immediate consideration.

The tendency during the last few years has been to greater kindness in the treatment of convicts, with a view to reforming the prisoner and turning him out a better man. The plan advocated by some to employ prisoners in building roads has received my earnest and careful consideration. After investigating the subject in all its phases, I am convinced that the proposition is not a wise one.

All the reformatory tendencies which may be exercised for the moral betterment of a prisoner will be in a great measure, if not entirely, nullified by the degradation he will be obliged to endure if compelled to work in a public place, attired in prison garb. and.

perhaps, with chains attached to him, subject to the gaze, and, it may be, the jeers of those who pass. The fact, moreover, that fathers, mothers, sons, daughters and sisters of prisoners, whose business might call them to pass places where gangs of convicts would be employed, would be compelled to look upon relatives who, although they have transgressed the law, are still dear to them, in such a humiliating condition, is not a pleasant thing to contemplate.

I am also of the opinion that with the increased number of guards that would be required to look after the prisoners, and the cost of transportation to and from the points where their labor would be required, the experiment would prove exceedingly expensive.

The cultivation of the land leased from Mr. Jacob Leonard five years ago was continued during the past season. There were raised on this land 464 barrels of potatoes, 4,905 heads of cabbage, 100 bushels of tomatoes, 20 barrels of beets, 10 barrels of onions, 7,000 cucumbers, 50 barrels of carrots, and 125 bushels of yellow corn. The lease of this land, consisting of about 40 acres, for which we paid \$200 per year, will expire April 1, 1901.

In April, 1897, I opened a shoe shop for the manufacture of the shoes required for use in the prison. A practical shoemaker was employed, taking the place of a keeper, and a number of long-term prisoners placed under his instruction. The result has been most gratifying. Not only have all the prison shoes been made and repaired in this shop, but a few have also been sold to the alms-house, and many more could be turned out, if a market could be found for them.

Owing to the low condition of the prison's finances, no extensive repairs have been made during the past year. Work in this line has been restricted to absolute requirements, and such repairs as were necessary to prevent deterioration of the property.

The more important items have been as follows:

New steps placed in the gallery stairs of the north wing; a new bread-trough built in the kitchen; Bertillon department remodeled in accordance with the plans specified by the State Superintendent of Prisons; roofs of all buildings, and the interior of bathhouse painted; floors of barns repaired, and a new 60-foot bridge built for the dumping of refuse.

I also purchased from the Albany Brush Company, upon the expiration of their contract, their one-half interest in the electric

dynamo, which was put in jointly by the Brush Company and the penitentiary some years ago. This I have had removed from the old brush shop to a location where it can be run from the power from our own engine. It is used to furnish power for the operation of the electric fans and exhaust-wheel in the kitchen, and for electric lights in various parts of the building.

The sanitary condition of the prison is excellent, and it is extremely gratifying to be able to report that the death rate for the past year has been the lowest in the history of the institution. As will be seen from the report of the physician, only three deaths have occurred during the year, and one of these resulted from delirium tremens, from which the prisoner was suffering when received here.

A particularly noticeable fact has been the great reduction in the number of cases of typhoid fever. The physician's report for 1895 shows that in that year there were 29 cases of that disease, five of which resulted fatally. Believing that many of these cases were the direct result of impure drinking water, I purchased and had set up, in January, 1896, two Blessing filters, at an expense of \$200. The great decrease in the number of cases of the fever since these filters have been in operation is conclusive proof that the money was well expended.

Statements of receipts and disbursements, earnings and expenses, and the various tables of prison statistics, together with the reports of the physician and chaplain, are transmitted herewith.

As foreshadowed in my last annual report the ordinary receipts of the penitentiary have not been sufficient to meet its running expenses. The County Treasurer has advanced the \$15,000 which he was authorized by the Board of Supervisors to borrow for this institution, and of this amount we have a balance now on hand of \$5,182.10.

Under existing circumstances the penitentiary must continue to run behind each year. There seems to be a tendency on the part of the various counties of the State to provide better jails and to care for their own prisoners. This plan has the approval of the State Commission of prisons, and, if persisted in, will in a short time result in the reduction of the number of prisoners in the penitentiary to those sentenced in the courts of this county.

The interest on the value of the penitentiary property, at the rate of interest paid on city and county funds, would about pay for the support of the Albany County prisoners, at the rate now paid us by other counties.

On May 1st, Rev. J. G. Fallon resigned as chaplain of the penitentiary on account of his removal from the city. The Rev. A. Randolph B. Hegeman was appointed to fill the vacancy, and has filled the position in a most acceptable manner.

On August 1st, Mr. Augustus Bowers, clerk of the penitentiary, who was associated with Mr. Amos Pilsbury, the first superintendent of the penitentiary, when the penitentiary was first opened, and who had given many years of faithful service to this institution, resigned because of advancing years and ill health. I have filled the place by the appointment of Mr. G. D. Winne, at a reduced salary, whereby a saving of \$600 per year has been effected.

In conclusion, I desire to thank the various officers, keepers and matrons of the penitentiary for the faithful and efficient manner in which they have performed their duties, and to express to the Commissioners of the penitentiary my appreciation of the courteous treatment received at their hands.

Very respectfully,

CHESTER F. DEARSTYNE,

*Superintendent.*

### CHAPLAINS' REPORTS.

ALBANY, N. Y., November 19, 1900.

To Mr. CHESTER F. DEARSTYNE, *Superintendent of the Albany County Penitentiary*:

Dear Sir.—I present to you, herewith, the report of the Chaplain of the Penitentiary, for the year ending October 31, 1900:

The duties of the office were performed by my predecessor, the Rev. J. G. Fallon, until his resignation on May first, when I assumed the office upon your appointment.

Since May first, in addition to the chapel services on alternate Sunday mornings, I have visited the men in their cells on Sunday afternoons, and I have visited the hospital at least once each week. Other calls and ministrations have been made as occasion demanded.

The chapel services have been well attended, and the other ministrations have been asked for and accepted with full appreciation by the inmates.

I have had the able assistance of Mr. Willard F. Donner, as organist, at the chapel services.

I have administered the sacrament of baptism to one person.

Through the kindness of talented friends of the Penitentiary, the usual exercises were held on Thanksgiving Day, under the direction of the former chaplain, and on the Fourth of July, under my direction.

Thoughtful friends have continued their liberal gifts of books, papers and magazines, as follows; Books, 105; papers, 3,937; magazines, 3,140; pamphlets, 73. There have been distributed among the prisoners, books from the library, 2,000; papers, 6,000; magazines, 5,000; pamphlets, 70. We have a large supply of papers and magazines, received recently, for distribution during the coming months.

In addition, Bibles and Testaments have been widely distributed.

I am glad to take the opportunity to make grateful acknowledgment of the kindness and courtesy which you have extended to me in my work, and to express my appreciation of the assistance that has been rendered me generally by the officials of the Penitentiary.

I am, faithfully yours,

A. RANDOLPH B. HEGEMAN,  
*Chaplain.*

ALBANY, N. Y., November 19, 1900.

To Mr. CHESTER F. DEARSTYNE, *Superintendent of the Albany County Penitentiary:*

Dear Sir.—I have the honor of submitting to you my second annual report as Catholic Chaplain of the County Penitentiary.

Services were held regularly every alternate Sunday. The prisoners have taken a deep interest in the religious services, and paid strict attention to the word of God preached to them. I am convinced that many have resolved to make better use of their lives in the future, and by the reception of the sacraments and by prayer have commenced to carry out this resolution.

Good work has been done by the members of St. Vincent de Paul's Conference, who come every Sunday to instruct the ignorant in the rudiments of religion, and distribute reading matter among them. They deserve great praise for their untiring work.

At stated intervals, the confessions of the Catholic prisoners were heard, and Holy Communion administered. Many have availed themselves of these opportunities to receive the sacraments with devotion.

I desire to express my thanks to you for your great kindness to me in the performance of my official duties, and to all the officers and matrons for the assistance they have rendered me.

Respectfully submitted,

ALPHONSE M. LEHRSCOLL,  
*Catholic Chaplain.*

## Chapter 283.

### AN ACT IN RELATION TO THE POWERS AND DUTIES OF THE BOARD OF SUPERVISORS OF ALBANY COUNTY.

PASSED May 14, 1881; three-fifths being present.

*The People of the State of New York, represented in Senate and Assembly, do enact as follows:*

SECTION 1. All claims and demands against the County of Albany, which are to be passed upon by the Board of Supervisors of such county, must be presented to the Board in the manner now required by law, in the form of accounts, itemized and verified as hereinafter provided for. Such accounts, after being presented, shall be delivered to the Clerk of the Board, and shall (excepting the verification thereof) be printed under the direction of said Clerk, at an expense not exceeding the ordinary price paid for such work, and shall be distributed under his direction to each member of the Board within eight days after such accounts have been presented; and no claim or demand against such county of the character above described, shall be in any manner acted upon by the Board (except to refer the same to an appropriate committee for examination and report), until three days after such account has been printed and distributed as herein reported. A willful neglect to have such accounts as are above described printed or distributed as by this act required, and within the times herein specified, and the presentation of an account known to the person presenting it to be fictitious and without any foundation, shall be a misdemeanor.

§ 2. Such account must state when and where the work was performed or materials furnished, and by what contract or under what authority it was performed or the materials furnished, and must state, with reasonable detail, the character and amount of the work done and materials furnished. The account must contain the names of each person interested in the same, or who makes any claim to any share or portion of the sum to be paid.

§ 3. Such account must be verified by one at least of the parties in whose name the same is presented, and must be to the effect that the same is presented in the name or names of the real party or parties in interest, and that the contract was not made or the work performed or materials furnished in the name of one person for the benefit of another; and that no county officer or member of any board or commission of the county, or salaried employe thereof, is or has been directly or indirectly interested therein, either in the doing of the work or the furnishing of the materials, or has been paid or promised anything for the letting of the contract. That the work as charged for was actually done, and the materials specified actually furnished and used at the times and places mentioned, and are of the value charged, or at the prices specified in the contract. That no bill has been presented or claim made theretofore for the payment of such work or materials, or for any part or item of such work or materials except as therein stated, and if such bill has been theretofore presented, or such claim has been theretofore made for the whole or any part thereof, it shall be stated to whom or what board, body or commission it was presented or made, the time or times thereof, and the action of such person, board, body or commission thereon, and when such action was taken.

§ 4. The Clerk of the Board shall prepare a blank form of verification, under the last section, to be approved by the District Attorney, and it shall be printed and furnished by said Clerk gratuitously to all persons demanding the same, and who have a claim or demand of the aforesaid character to present to the Board, and no account shall be presented to the Board, or received or paid or ordered paid, or acted upon by it unless the verification is in the form prepared by said Clerk; and in no case shall the account be paid until five days after the proceedings of the Board allowing or auditing the account have been printed or distributed, as herein provided for, of which the certificate of the Clerk of the Board to that effect shall be evidence, and such account shall not be paid by the County Treasurer at all, unless the verification and the bill presented complies with the provisions of this act. When paid the original account or bill having the verification attached shall be receipted by the party receiving the money, or his duly authorized agent, and filed with the County Treasurer, and is hereby declared to be a public record in his office. All claims and demands presented, including verification, which shall not be allowed or paid, shall be retained and filed, with the proper indorsement of the

name, date and amount, by the Clerk of the Board, in his office, and shall be public records.

§ 5. The proceedings of the Board of Supervisors shall also be printed and distributed, under the direction of its Clerk, within the time above mentioned for the printing and distribution of the aforesaid accounts. In addition to the number of copies that may be required by the Clerk of the Board, for the distribution above provided for, there shall be printed three hundred copies, which shall be kept by said printer in some safe place, and immediately after the first day of January in each year such copies for the preceding year shall be bound in good law sheep at the prices ordinarily paid for such work, under the direction of the Clerk of the Board, with an index list of county officers, committees, et cetera, to be prepared by him, and the same shall be distributed under the direction of the Board.

§ 6. ### AN ACT TO REGULATE THE TRANSACTION OF PUBLIC BUSINESS IN THE COUNTY OF ALBANY.

PASSED March 7, 1883; three-fifths being present.

*The People of the State of New York, represented in Senate and Assembly, do enact as follows:*

SECTION 1. The Board of Supervisors of the County of Albany shall meet annually, for the purpose of organizing, on the second Tuesday in May in each year, and shall at such meeting elect a President and

Clerk of the Board, and also the Journal Clerk hereinafter mentioned. The Board shall also meet on the second Wednesday next following the general election in November in each year, for the purpose of auditing claims and accounts against the County of Albany, and of doing any of the other several acts and things which it is provided by law shall be done by said Board.

§ 2. It shall be the duty of the Clerk of the Board to cause to be published in two newspapers, in the County of Albany, on the fifteenth day of October, and daily, except Sundays, for the two weeks succeeding that date, a notice requiring all claims and demands against the County of Albany to be presented to the Clerk of said Board, on or before the first day of November following, at his office in the City of Albany (and upon blanks which can be had upon application to said Clerk), which notice shall state that all claims not presented on or before that date in the form and with the verification required by chapter two hundred and eighty-three of the Laws of eighteen hundred and eighty-one, can not be audited by the Board of Supervisors at its then next annual meeting. It shall also be the duty of the Clerk to cause such notice to be printed upon postal cards, and to mail such cards one addressed to each person, corporation or institution in whose name any bill or claim was audited by the previous Board of Supervisors, and to each other person who shall file with the Clerk a written notice that he has any claim or demand against the said County of Albany.

§ 3. The said Clerk shall examine all claims which shall be presented pursuant to said notice, and shall enter in a book to be kept by him the name of the claimant and of the person actually presenting or delivering the claim; the amount of the claim and the date when the bill or claim was presented, and such other matters as may be proper. All bills or claims which shall not comply in form and verification with the provisions of chapter two hundred and eighty-three of the Laws of eighteen hundred and eighty-one shall be forthwith returned by the Clerk to the claimant personally or by mail, with a notification of the defect therein, and that the same must be returned duly corrected to said Clerk on or before the tenth day of November following, or that it can not be audited or allowed by the Board of Supervisors of that year. The Clerk shall, on or immediately after the said first day of November in each year, cause the bills so presented as aforesaid, which are not defective in form, to be printed as required by chapter two hundred and eighty-three of the Laws of eighteen hundred and eighty-one, and the same shall be numbered in the order which

they are printed. All bills which having been returned to the Clerk as defective shall be again presented to him in due and proper form on or before the said tenth day of November, but none others, shall be in like manner printed. No bill or claim against the county, except such as shall be so presented and printed as above provided for, shall be audited by the Board of Supervisors, except that in case of extraordinary public emergency the Board shall have power, by unanimous consent, after a two days' notice has been given by any member of his intention to present any bill, to allow such bill to be presented and printed, and the same may then be audited as other claims against the county; provided, however, that in the year eighteen hundred and eighty-three the Board of Supervisors may by resolution direct that any bills presented in due form during the first week of its session shall be printed, and the same may in that case be audited as other county charges.

§ 4. The bills presented by Inspectors of Election and Poll Clerks, and by Coroners' Jurors, need not to be presented before the first day of November, and shall not be printed or distributed by the Clerk; but in all other respects as to form, verification and manner of audit and payment, the provisions of chapter two hundred and eighty-three of the Laws of eighteen hundred and eighty-one, as hereby amended, shall apply to such bills.

§ 5. The Clerk shall receive a salary of eighteen hundred dollars, payable monthly, and shall have the assistance from the fifteenth day of October of one Clerk, who shall be known as the Journal Clerk, and shall receive on the certificate of the Clerk a salary of five hundred dollars, and shall continue to act during the session and thereafter until the duties of that position are fully executed, to the satisfaction of the Clerk; and of a second clerk who shall be appointed by the Board of Supervisors at their first meeting in November, and be known as Committee Clerk, and shall receive on the certificate of the Clerk a salary of three hundred dollars, and shall continue to act during the session of the Board. Such clerks shall assist and be under the direction and control of and be subject to removal by the Clerk of the Board of Supervisors, who shall fix and define their respective duties. It shall be the duty of the Clerk of the Board, either himself or by his two subordinate clerks, to give all clerical and other assistance required for the preparation of the official canvass of votes and the footing up and verification of the assessment-rolls, and which may be essential and proper for the efficient conduct and execution of the duties devolved upon the Board of Supervisors or any of its

committees, and no other clerks or persons shall be paid for any such services.

§ 6. Whenever the Board of Supervisors of Albany County is now authorized by law to audit and allow any such sum of money for publication of notice of redemption from tax sales, for rent of real estate or for services to be rendered continuously throughout the year, by any officer or employe, either in its own discretion or upon the certificate or approval of any other board or officer, it may, upon the presentation of the proper certificate or approval, or without it, if none is required, direct in advance that such rent, or such person so rendering the services, shall during the ensuing year be paid quarterly or monthly, by the County Treasurer, a sum to be stated in each case, which shall not exceed the amount the Board is now authorized by law to allow for such services, if a duly verified claim for the same were presented for audit, and may also direct in advance the payment of the expense of publishing notices of redemption from tax sales, provided that all claims and bills presented to the County Treasurer for payment under this section shall be in the same form and be verified in the same manner as would be required in case such bills were presented to the Board of Supervisors of Albany County for audit; and they shall not be paid by the County Treasurer unless presented in such form and duly verified, and in the case of the redemption notices, a printed copy of such notice shall be attached to the bill.

§ 7. This act shall not in any way apply to or affect the provisions of chapter four hundred and ninety-seven of the Laws of eighteen hundred and seventy-five, or the work therein provided to be done, or the compensation to be paid therefor.

§ 8. Whenever a claim against the County of Albany is presented by any county officer or the member of any board or commission, or salaried employe of the county, which he is authorized by law to present for audit, the said officer, member or employe may strike out from the affidavit of verification of such claim the allegation that no county officer or member of any board or commission, or salaried employe thereof, is or has been directly or indirectly interested therein (but no other part thereof), and substitute at the end of such affidavit a statement as to his relation to the county.

§ 9. Whenever, in any law, a reference is made to the annual session or meeting of the Board of Supervisors, it shall be construed and deemed, as regards the Board of Supervisors of Albany County, to mean and intend the session or meeting of said Board, to be held commencing in November of each year.

10. It shall be the duty of the Board of Supervisors of Albany County to raise in the county tax budget each year a sum not less than twenty thousand dollars, which shall be applied to the payment and extinguishment of so much of the principal of the bonded debt of the county.

§ 11. The amount of salaries of the Assessors of the City of Albany, as provided for by chapter four hundred and forty-seven of the Laws of eighteen hundred and seventy, shall hereafter be included in the tax budget of said city, and be received and paid out monthly by the Chamberlain of said city, instead of by the County Treasurer.

§ 12. The amount of money now required by section twenty-five of chapter two hundred and eighty-four of the Laws of eighteen hundred and seventy-two, for the salaries and expenses of the officers employed by the District Attorney of Albany County shall hereafter be disbursed by the County Treasurer of Albany County, who shall in all respects perform the duties now imposed by said section upon the Chamberlain of the City of Albany.

## AN ACT IN RELATION TO THE MANAGEMENT OF THE ALBANY PENITENTIARY.

PASSED May 11, 1885; three-fifths being present.

*The People of the State of New York, represented in Senate and Assembly, do enact as follows:*

SECTION 1. All the powers and duties now imposed by law upon the Board of Supervisors of Albany County and upon the Mayor and Recorder of the City of Albany, associated with said Board in relation to the maintenance, management and care of the Penitentiary in said city and the inmates thereof, the establishment and adoption of rules for the regulation and discipline thereof, the appointment of officers to take charge thereof, the fixing of their compensation and prescribing their duties, together with all other rights, powers and duties relating to said Penitentiary, vested in said Board of Supervisors, or said Mayor, Recorder and Board of Supervisors, except as hereinafter modified, are hereby vested in the Albany Penitentiary Commission, as hereby constituted.

§ 2. The President of the Board of Supervisors of Albany County, shall, within ten days after the first day of June, 1895, and every five years thereafter, appoint a resident free-holder, a citizen of Albany County, one Commissioner of the Albany Penitentiary Commission, who shall hold his office up to and until the tenth day of June in the year nineteen hundred, and thereafter until his successor shall be appointed. (*As amended by chapter 761, Laws of 1895*).

§ 3. The said Commissioner, so appointed, together with the District Attorney of Albany County, who shall be a Commissioner by virtue and during the continuance of his term of office, and the County Clerk of Albany County, who shall also be a Commissioner by virtue and during the continuance of his term of office, are hereby made and constituted the Commissioners of the Albany Penitentiary Commission. (*As amended by chapter 761, Laws of 1895*).

§ 4. The Albany Penitentiary Commission shall within fifteen days after the tenth day of June, eighteen hundred and ninety five, and each five years thereafter, for a period of five years, appoint the Superintendent or principal keeper of the Albany Penitentiary, who shall receive a salary of three thousand dollars a year, and shall not be engaged in any business or any other occupation or employment. They shall, also, by general rules, fix and prescribe the number of subordinate officers and employes, who shall be appointed by such Superintendent, and their respective salaries and duties. Said Commission shall, annually, between the first and tenth days of December in each year, present to the Board of Supervisors of Albany County a report, showing in detail the receipts and disbursements of the year, the respective sources from which money has been received, and the respective purposes for which it has been paid out, and also a general summary of the same; the name of each person employed and the salary or compensation paid him or her; the cost of maintaining each person in the Penitentiary, and in tabular form the number of prisoners therein each day during the year. Said report shall also contain a statement of the gross and net earnings, if any, of the Penitentiary during the past year, and the average earnings of the prisoners per capita, and such other information as will show the then condition of the Penitentiary and the manner of its management during the previous year. (*As amended by chapter 761, Laws of 1895*).

§ 5. The said Commissioners shall choose from their number a chairman and secretary. The chairman shall preside at all meetings of the

Board. The secretary shall record in a book to be procured by him for that purpose, at the county expense, all proceedings, orders, resolutions and decrees of the Board. Such book shall be and constitute a public record, and shall be kept and preserved by the secretary. The books of account, records, documents and all other papers in said Penitentiary shall be at all times open to the inspection and examination of the Board of Supervisors of Albany County, or any committee thereof, and copies thereof and any information upon any subject relating to said Penitentiary or its management, when asked for by said Board, shall be at all times furnished to said Board by the Superintendent of the Penitentiary.

§ 6. The said Superintendent of the Penitentiary, under the supervision and direction of the said Commissioners, shall deposit with the County Treasurer of Albany County all moneys received by him for said Penitentiary or in its management, and all moneys required in the conduct of the business of said Penitentiary for the payment of officers or employes thereof, or any disbursements connected with or its management (except the wages and salaries which shall be paid upon certificate of the Superintendent of the Penitentiary), shall be paid upon bills made out in the same form, and verified in the same manner as is now required in the case of claims presented for audit to the Board of Supervisors of Albany County, when such bills are accompanied with the warrant of the Superintendent of the Penitentiary, specifying the person to whom, the services or supplies for which, and the amount in which such payments are to be made, and duly signed and dated; provided, however, that the Superintendent may, for petit disbursements and expenses, pay out and disburse in any one month an amount not exceeding two hundred dollars, of which disbursements the Superintendent shall render a detailed account each month to the Commissioners of the Albany Penitentiary, which shall be audited by them, by each Commissioner who approves thereof, certifying in writing thereon the fact of such approval; and when so approved by a majority of said Commissioners, it shall be paid by the County Treasurer. The County Treasurer shall keep an account of all the receipts and disbursements provided for in this act.

§ 7. The Commissioners or any one of them may be removed at any time upon charges presented against them or any one of them by the Board of Supervisors of Albany County, which charges and the proofs in relation thereto shall be brought to a hearing before the Special Term of the Supreme Court held in Albany County on a notice of eight days of the time and place of such hearing to said Commission or Com-

missioners against whom such charges may be presented. If, upon such hearing, it shall appear that such Commissioner or Commissioners shall have violated the law, or shall have failed in any way faithfully and zealously to carry out the purpose of this act, or perform the duties imposed hereby, the court shall so adjudge, and thereafter the Commissioner or Commissioners against whom such adjudication shall be made shall cease to be such Commissioners. Any vacancies in the Commission so caused shall be filled for the unexpired term by the certificate of appointment of the President of the Board of Supervisors, filed with the Clerk of the Board of Supervisors. And any vacancy for any cause, arising in the office of the Commissioner whose appointment is provided for in section two of this act, shall be filled in like manner by the President of the Board of Supervisors.

§ 8. The Superintendent of the Penitentiary may be at any time removed by the decision of a majority of said Commissioners, for neglect of duty or violation or disregard of the rules or regulations prescribed and adopted by said Commission for the management of the Penitentiary, or for incompetency; provided, however, that before any such removal shall take place, written charges shall be made and signed by at least two of said Commissioners against said Superintendent, and together with a written notice of a time and place at which the Superintendent will be heard in answer thereto, be served upon him, and he shall be entitled to appear and be heard at such time and place, and give any proper proofs in the matter in question.

§ 9. All the business and affairs of said Penitentiary shall be conducted in the names of said Commissioners as such, and all liabilities existing against any person, persons or corporations shall be enforced by them in their names as Commissioners.

§ 10. This act shall take effect the fifteenth day of May, eighteen hundred and eighty five.
